#### Article 2.6

##### **Remanufactured Goods**

The Parties shall accord to remanufactured goods the same treatment as that accorded to new like goods. A Party may require specific labelling of remanufactured goods in order to prevent deception of consumers. Each Party shall implement this Article within a transitional period of no longer than three years from the date of entry into force of this Agreement.

#### Article 2.7

##### **Reduction or Elimination of Customs Duties**

1. Except as otherwise provided for in this Agreement, each Party shall reduce or eliminate its customs duties on goods originating in the other Party in accordance with its respective schedule included in Appendices 2-A-1 (Tariff Schedule of the Union) and 2-A-2 (Tariff Schedule of Viet Nam) to Annex 2-A (Reduction or Elimination of Customs Duties).
2. For the calculation of the successive reductions under paragraph 1, the base rate for customs duties of each good shall be the one specified in the schedules included in Appendices 2-A-1 (Tariff Schedule of the Union) and 2-A-2 (Tariff Schedule of Viet Nam) to Annex 2-A (Reduction or Elimination of Customs Duties). The tariff elimination established under Appendix 2-A-2 (Tariff Schedule of Viet Nam) does not apply to used motor-vehicles under HS headings 87.02, 87.03 and 87.04.
3. If a Party reduces an applied most-favoured-nation customs duty rate below the rate of customs duty applied in accordance with its respective schedule included in Appendices 2-A-1 (Tariff Schedule of the Union) and 2-A-2 (Tariff Schedule of Viet Nam) to Annex 2-A (Reduction or Elimination of Customs Duties), the good originating in the other Party shall be eligible for that lower duty rate.
4. Except as otherwise provided in this Agreement, a Party shall not increase any existing customs duty applied in accordance with its respective schedule included in Appendices 2-A-1 (Tariff Schedule of the Union) and 2-A-2 (Tariff Schedule of Viet Nam) to Annex 2-A (Reduction or Elimination of Customs Duties), or adopt any new customs duty, on a good originating in the other Party.

When a Party considers such an acceleration it shall inform the other Party as early as possible before the new rate of customs duty takes effect. A unilateral acceleration shall not preclude the Party from raising a customs duty to the prevailing rate at each stage of reduction or elimination in accordance with its respective schedule included in Appendices 2-A-1 (Tariff Schedule of the Union) and 2-A-2 (Tariff Schedule of Viet Nam) to Annex 2-A (Reduction or Elimination of Customs Duties).

Such an amendment shall come into effect in accordance with Article 17.5 (Amendments).

#### *Article 2.8*

### **Management of Administrative Errors**

In the event of an error by the competent authorities in the proper management of the preferential system at export, and in particular in the application of Protocol 1 (Concerning the Definition of the Concept of "Originating Products" and Methods of Administrative Cooperation), where this error leads to consequences in terms of import duties, the importing Party may request the Trade Committee established pursuant to Article 17.1 (Trade Committee) to examine the possibilities of adopting appropriate measures with a view to resolving the situation.

#### *Article 2.9*

### **Specific Measures concerning the Preferential Tariff Treatment**

1. The Parties shall cooperate on combating customs violations relating to the preferential tariff treatment granted under this Chapter.

2. For the purposes of paragraph 1, each Party shall offer the other Party administrative cooperation and mutual administrative assistance in customs and related matters as part of the implementation and control of the preferential tariff treatment, which shall include the following obligations:

- (a) verifying the originating status of the product or products concerned;
- (b) carrying out the subsequent verification of the proof of origin and providing the results of that verification to the other Party; and
- (c) granting authorisation to the importing Party to conduct enquiry visits in order to determine the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

3. Where, in accordance with the provisions on administrative cooperation or mutual administrative assistance in customs and related matters referred to in paragraph 2, the importing Party establishes that a proof of origin was unduly issued by the exporting Party because the requirements provided for in Protocol 1 (Concerning the Definition of the Concept of "Originating Products" and Methods of Administrative Cooperation) were not fulfilled, that importing Party may deny a preferential tariff treatment to a declarant who claimed it with regard to goods for which the proof of origin was issued.

4. If the importing Party considers that the denial of preferential tariff treatment for individual consignments referred to in paragraph 3 is insufficient to implement and control the preferential tariff treatment of a given product, that Party may, in accordance with the procedure laid down in paragraph 5, temporarily suspend the relevant preferential tariff treatment of the products concerned in the following cases:

- (a) when that Party finds that there has been a systematic customs violation regarding claims for preferential tariff treatment under this Agreement; or
- (b) when that Party finds that the exporting Party has systematically failed to comply with the obligations under paragraph 2.

5. The competent authority of the importing Party shall, without undue delay, notify its finding to the competent authority of the exporting Party, provide verifiable information upon which the finding was based and engage in consultations with the competent authority of the exporting Party with a view to achieving a mutually acceptable solution.

6. If the competent authorities have not achieved a mutually acceptable solution after 30 days following the notification referred to in paragraph 5, the importing Party shall, without undue delay, refer the matter to the Trade Committee.

7. If the Trade Committee has failed to agree on an acceptable solution within 60 days following the referral, the importing Party may temporarily suspend the preferential tariff treatment for the products concerned.

The importing Party may apply the temporary suspension of preferential tariff treatment under this paragraph only for a period necessary to protect its financial interests and until the exporting Party provides convincing evidence of its ability to comply with the obligations referred to in paragraph 2 and to provide sufficient control of the fulfilment of those obligations.

The temporary suspension shall not exceed a period of three months. If the conditions that gave rise to the initial suspension persist after the expiry of the three-month period, the importing Party may decide to renew the suspension for another period of three months. Any suspension shall be subject to periodic consultations within the Trade Committee.

8. The importing Party shall publish, in accordance with its internal procedures, notices to importers of any notification and decision concerning the temporary suspension referred to in paragraph 4. The importing Party shall, without undue delay, notify the exporting Party and the Trade Committee of any such notification or decision.

#### *Article 2.10*

### **Repaired Goods**

1. A Party shall not apply a customs duty to a good, regardless of its origin, that re-enters its territory after the good has been temporarily exported from its territory to the territory of the other Party for repair, regardless of whether such repair could be performed in the territory of the Party from which the good was temporarily exported.

2. Paragraph 1 does not apply to a good imported in bond, into a free trade zone, or in similar status, that is exported for repair and is not re-imported in bond, into a free trade zone, or in similar status.

3. A Party shall not apply a customs duty to a good, regardless of its origin, imported temporarily from the territory of the other Party for repair.

4. For the purposes of this Article, the term "repair" means any processing operation which is undertaken on a good to remedy operating defects or material damage and entailing the re-establishment of a good to its original function, or to ensure its compliance with technical requirements for its use, without which the good could no longer be used in the normal way for the purposes for which it was intended. Repair of a good includes restoring and maintenance. It shall not include an operation or process that:

- (a) destroys the essential characteristics of the good or creates a new or commercially different good;
- (b) transforms an unfinished good into a finished good; or
- (c) is used to improve or upgrade the technical performance of a good.

#### *Article 2.11*

### **Export Duties, Taxes or Other Charges**

1. A Party shall not maintain or adopt any duties, taxes, or other charges of any kind imposed on, or in connection with, the exportation of a good to the territory of the other Party that are in excess of those imposed on like goods destined for domestic consumption, other than in accordance with the schedule included in Appendix 2-A-3 (Export Duty Schedule of Viet Nam) to Annex 2-A (Reduction or Elimination of Customs Duties).

2. If a Party applies a lower rate of duty, tax or other charge on, or in connection with, the exportation of a good, and for as long as it is lower than the rate calculated in accordance with the schedule included in Appendix 2-A-3 (Export Duty Schedule of Viet Nam) to Annex 2-A (Reduction or Elimination of Customs Duties), that lower rate shall apply. This paragraph shall not apply to more favourable treatment granted to any third country pursuant to a preferential trade agreement.

3. At the request of either Party, the Trade Committee shall review any duties, taxes, or other charges of any kind imposed on, or in connection with, the exportation of goods to the territory of the other Party, when a Party has granted more favourable treatment to any third country pursuant to a preferential trade agreement.

#### *Article 2.12*

### **Agricultural Export Subsidies**

1. In the multilateral context, the Parties share the objective of the parallel elimination and prevention of the reintroduction of all forms of export subsidies and disciplines on all export measures with equivalent effect for agricultural goods. To that end, they shall work together with the aim of enhancing multilateral disciplines on agricultural exporting state enterprises, international food aid and export financing support.

2. Upon the entry into force of this Agreement, the exporting Party shall not introduce or maintain any export subsidies or other measures having equivalent effect on any agricultural good which is subject to the elimination or reduction of customs duties by the importing Party in accordance with Annex 2-A (Reduction or Elimination of Customs Duties) and which is destined for the territory of the importing Party.

#### *Article 2.13*

### **Administration of Trade Regulations**

In accordance with Article X of GATT 1994, each Party shall administer in a uniform, impartial and reasonable manner all its laws, regulations, judicial decisions and administrative rulings pertaining to:

- (a) the classification or the valuation of goods for customs purposes;

- (b) rates of duty, taxes or other charges;
- (c) requirements, restrictions or prohibitions on imports or exports;
- (d) the transfer of payments; and

#### Article 2.14

### Import and Export Restrictions

1. Except as otherwise provided for in this Agreement, a Party shall not adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, in accordance with Article XI of GATT 1994, including its Notes and Supplementary Provisions. To that end, Article XI of GATT 1994, including its Notes and Supplementary Provisions, are incorporated into and made part of this Agreement, *mutatis mutandis*.
2. Paragraph 1 prohibits a Party from adopting or maintaining:
  - (a) import licensing conditioned on the fulfilment of a performance requirement; or
  - (b) voluntary export restraints.
3. Paragraphs 1 and 2 do not apply to the goods listed in Appendix 2-A-4 (Goods to Which Viet Nam May Apply Specific Measures). Any amendment of Viet Nam's laws and regulations that reduces the scope of the goods listed in Appendix 2-A-4 (Goods to Which Viet Nam May Apply Specific Measures) shall automatically apply under this Agreement. Any preference accorded by Viet Nam regarding the scope of the goods listed in Appendix 2-A-4 (Goods to Which Viet Nam May Apply Specific Measures) to any other trading partner shall automatically apply under this Agreement. Viet Nam shall notify the Union of any amendment or preference referred to in this paragraph.
4. In accordance with the WTO Agreement, a Party may implement any measure authorised by the Dispute Settlement Body of the WTO against the other Party.
5. When a Party adopts or maintains an import or export prohibition or restriction it shall ensure full transparency thereof.

#### Article 2.15

### Trading Rights and Related Rights for Pharmaceuticals

1. Viet Nam shall adopt and maintain appropriate legal instruments allowing foreign pharmaceutical companies to establish foreign-invested enterprises for the purposes of importing pharmaceuticals which have obtained a marketing authorisation from Viet Nam's competent authorities. Without prejudice to Viet Nam's schedules included in Annex 8-B (Viet Nam's Schedule of Specific Commitments), such foreign-invested enterprises are allowed to sell pharmaceuticals which they have legally imported to distributors or wholesalers who have the right to distribute pharmaceuticals in Viet Nam.
2. The foreign-invested enterprises referred to in paragraph 1 are allowed to:
  - (a) build their own warehouses to store pharmaceuticals which they have legally imported into Viet Nam in accordance with the regulations issued by the Ministry of Health, or its successor;

  5. Upon request of a Party, the other Party shall respond within 60 days to a reasonable enquiry regarding any import licensing procedure which it intends to adopt or has adopted or maintained, as well as the criteria for granting or for allocating import licences, including the eligibility of persons, firms, and institutions to make such an application, the administrative body or bodies to be approached and the list of products subject to the import licensing requirement.
  6. The Parties shall introduce and administer import licensing procedures in accordance with:
    - (a) paragraphs 1 to 9 of Article 1 of the Import Licensing Agreement;
    - (b) Article 2 of the Import Licensing Agreement; and

1. If, as a result of the reduction or elimination of a customs duty under this Agreement, any good originating in the territory of a Party is being imported into the territory of the other Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to a domestic industry producing like or directly competitive goods, the importing Party may adopt measures provided for in paragraph 2 in accordance with the conditions and procedures laid down in this Section during the transition period only, except as otherwise provided for in subparagraph 6(c) of Article 3.11 (Conditions and Limitations).
2. The importing Party may impose a bilateral safeguard measure which:
  - (a) suspends the further reduction of the rate of customs duty on the good concerned as provided for in Annex 2-A (Elimination of Customs Duties); or
  - (b) increases the rate of customs duty on the good to a level which does not exceed the lesser of:
    - (i) the most-favoured-nation applied rate of customs duty on the good in effect at the time the measure is taken; or

1. A Party shall only apply a bilateral safeguard measure following an investigation by its competent authorities in accordance with Article 3 and subparagraph 2(c) of Article 4 of the Safeguards Agreement. To that end, Article 3 and subparagraph 2(c) of Article 4 of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.
2. A Party shall notify the other Party in writing of the initiation of the investigation referred to in paragraph 1 and consult with the other Party as far as practicable in advance of applying a bilateral safeguard measure, with a view to reviewing the information arising from the investigation and exchanging views on the measure.
3. In the investigation referred to in paragraph 1, the Party shall comply with the requirements of subparagraph 2(a) of Article 4 of the Safeguards Agreement. To that end, subparagraph 2(a) of Article 4 of the Safeguards Agreement is incorporated into and made part of this Agreement, *mutatis mutandis*.
4. The investigation shall also demonstrate, on the basis of objective evidence, the existence of a causal link between increased imports and the serious injury or threat thereof. The investigation shall also take into consideration the existence of any factor other than increased imports which may also cause injury at the same time.
5. Each Party shall ensure that its competent authorities complete the investigation referred to in paragraph 1 within one year of the date of its initiation.

6. A Party shall not apply a bilateral safeguard measure:
- (a) except to the extent, and for such time, as it is necessary to prevent or remedy serious injury and to facilitate adjustment;
  - (b) for a period exceeding two years, except that the period may be extended by up to two years if the competent authorities of the importing Party determine, in conformity with the procedures set out in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, does not exceed four years; or
  - (c) beyond the expiration of the transition period, except with the consent of the other Party.
7. In order to facilitate adjustment in a situation where the expected duration of a bilateral safeguard measure is more than two years, the Party applying the measure shall progressively liberalise the measure at regular intervals during the period of application.
8. When a Party terminates a bilateral safeguard measure, the rate of customs duty shall be the rate that, according to its schedule included in Annex 2-A (Reduction or Elimination of Customs Duties), would have been in effect but for the measure.

#### *Article 3.12*

### **Provisional Measures**

In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and that such imports cause serious injury, or threat thereof, to the domestic industry. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of paragraphs 1 and 3 of Article 3.11 (Conditions and Limitations). The Party shall promptly refund any tariff increases if the investigation referred to in paragraph 1 of Article 3.11 (Conditions and Limitations) does not result in a finding that the requirements of paragraph 1 of Article 3.10 (Application of a Bilateral Safeguard Measure) are met. The duration of any provisional measure shall be counted as part of the period set out in subparagraph 6(b) of Article 3.11 (Conditions and Limitations).

#### *Article 3.13*

### **Compensation**

1. A Party applying a bilateral safeguard measure shall consult with the other Party in order to mutually agree on appropriate trade-liberalising compensation in the form of concessions having trade effects substantially equivalent to the bilateral safeguard measure or in the form of concessions equivalent to the value of the additional duties expected to result from the safeguard measure. The Party applying a bilateral safeguard measure shall provide an opportunity for such consultations no later than 30 days after the application of the bilateral safeguard measure.
2. If the consultations under paragraph 1 do not result in an agreement on trade-liberalising compensation within 30 days of the beginning of the consultations, the Party whose goods are subject to the bilateral safeguard measure may suspend the application of concessions, with respect to originating goods of the Party applying the bilateral safeguard measure, which have trade effects substantially equivalent to the bilateral safeguard measure. The obligation to provide compensation, incumbent on the Party applying the bilateral safeguard measure, and the other Party's right to suspend concessions under this paragraph shall terminate on the same date as the bilateral safeguard measure terminates.

3. The right of suspension referred to in paragraph 2 shall not be exercised for the first 24 months during which a bilateral safeguard measure is in effect, provided that the safeguard measure conforms to the provisions of this Agreement.

  - (c) reviewing, without prejudice to Article 2.3 of the TBT Agreement, technical regulations with a view to increasing their convergence with relevant international standards. In undertaking this review, the Parties shall, *inter alia*, take into account any new development in the relevant international standards and whether the circumstances that have given rise to divergences from any relevant international standard continue to exist;

(d) specifying technical regulations based on product performance requirements, rather than on design or descriptive characteristics.

2. In accordance with Article 2.7 of the TBT Agreement, a Party shall give favourable consideration to accepting as equivalent technical regulations of the other Party, even if those regulations differ from its own, provided it is satisfied that those regulations adequately fulfil the objectives of its own regulations.

3. A Party that has prepared a technical regulation that it considers to be equivalent to a technical regulation of the other Party because it has a compatible objective and product scope may request in writing that the other Party recognise it as equivalent. That request shall be made in writing and set out in detail the reasons why the technical regulations should be considered to be equivalent, including reasons with respect to product scope. A Party which does not agree that the technical regulations are equivalent shall provide to the other Party, upon request, the reasons for its decision.

#### Article 5.5

#### Standards

1. The Parties affirm their obligations under Article 4.1 of the TBT Agreement to ensure that their standardising bodies accept and comply with the Code of Good Practice for the Preparation, Adoption and Application of Standards in Annex 3 to the TBT Agreement. The Parties further affirm their adherence to the principles set out in *Decisions and Recommendations adopted by the WTO Committee on Technical Barriers to Trade since 1 January 1995*, G/TBT/1/rev.13 of 8 March 2017, including the *Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the Agreement*, referred to in the Annexes to Part 1 of the document.

2. With a view to harmonising standards on as wide a basis as possible, the Parties shall encourage their standardising bodies as well as the regional standardising bodies of which they or their standardising bodies are members to:

(a) participate, within the limits of their resources, in the preparation of international standards by relevant international standardising bodies;

(b) use relevant international standards as a basis for the standards they develop, except where those international standards would be ineffective or inappropriate for the fulfilment of the legitimate objectives pursued by a Party, for instance because of an insufficient level of protection, fundamental climatic or geographical factors, or fundamental technological problems;

(c) avoid duplication of, or overlap with, the work of international standardising bodies;

(d) review national and regional standards not based on relevant international standards at regular intervals, with a view to increasing their convergence with relevant international standards; and

(e) cooperate with the relevant standardisation bodies of the other Party in international standardisation activities. That cooperation may be undertaken in international standardising bodies or at regional level.

3. The Parties shall exchange information on:

(a) their use of standards in support of technical regulations;

- (b) their standardisation processes, and the extent of their use of international or regional standards as basis for their national standards; and
- (c) cooperation agreements on standardisation implemented by either Party, including on standardisation issues in international agreements with third countries, to the extent this is not explicitly prohibited by those agreements.

4. The Parties recognise that in accordance with Annex 1 to the TBT Agreement, compliance with standards is voluntary. When a Party makes compliance with standards mandatory, through incorporation or referencing in technical regulations or conformity assessment procedures, Article 5.7 (Transparency) applies.

#### Article 5.6

#### Conformity Assessment Procedures

1. In respect of mandatory conformity assessment procedures the Parties shall apply paragraph 1 of Article 5.4 (Technical Regulations), *mutatis mutandis*, with a view to avoiding unnecessary obstacles to trade and ensuring transparency and non-discrimination.

2. In line with Article 5.1.2 of the TBT Agreement, when an importing Party requires positive assurance of conformity with its applicable technical regulations or standards, its conformity assessment procedures shall neither be stricter nor applied more strictly than necessary to give that Party adequate confidence that products conform with its applicable technical regulations or standards, taking account of the risks non-conformity would create.

3. The Parties recognise that a broad range of mechanisms exists to facilitate the acceptance of the results of conformity assessment procedures conducted in the territory of the other Party, including:

- (a) the importing Party's reliance on a supplier's declaration of conformity;
- (b) agreements on mutual acceptance of the results of conformity assessment procedures with respect to specific technical regulations conducted by bodies located in the territory of the other Party;
- (c) use of accreditation to qualify conformity assessment bodies located in the territory of either Party;
- (d) government designation of conformity assessment bodies, including bodies located in the territory of the other Party;
- (e) unilateral recognition by a Party of the results of conformity assessment procedures conducted in the territory of the other Party;
- (f) voluntary arrangements between conformity assessment bodies located in the territory of either Party; and
- (g) use of regional and international multilateral recognition agreements and arrangements to which the Parties are party.

4. Having regard in particular to the considerations referred to in paragraph 3, the Parties shall:

- (a) intensify their exchange of information on the mechanism referred to in paragraph 3 and on similar mechanisms with a view to facilitating the acceptance of conformity assessment results;

- (b) exchange information on conformity assessment procedures and, in particular, on the criteria used to select appropriate conformity assessment procedures for specific products;
- (c) consider a supplier's declaration of conformity as one of the assurances of conformity with domestic law;
- (d) consider arrangements on mutual acceptance of the results of conformity assessment procedures according to the procedure set out in paragraph 5;
- (e) exchange information on accreditation policy and to consider how to best make use of international standards for accreditation and of international agreements involving the Parties' accreditation bodies, for example, through the mechanisms of the International Laboratory Accreditation Cooperation and the International Accreditation Forum;
- (f) consider joining or, as applicable, to encourage their testing, inspection and certification bodies to join any operative international agreements or arrangements for harmonisation or facilitation of acceptance of conformity assessment results;
- (g) ensure that economic operators have a choice amongst conformity assessment facilities designated by the authorities to perform the tasks required by domestic law to assure compliance;
- (h) endeavour to use accreditation to qualify conformity assessment bodies; and
- (i) ensure independence of, and absence of conflict of interest between, accreditation bodies and conformity assessment bodies.

5. Upon request from a Party, the other Party may decide to enter into consultations with a view to defining sectoral initiatives regarding the use of conformity assessment procedures or the facilitation of acceptance of conformity assessment results that are appropriate for the respective sectors. The Party making the request should provide relevant information on how the sectoral initiative would facilitate trade. If the other Party declines that request it shall, upon request, provide its reasons.

6. The Parties affirm their obligations under Article 5.2.5 of the TBT Agreement that fees imposed for mandatory conformity assessment of imported products shall be equitable in relation to any fees chargeable for assessing the conformity of like products of domestic origin or originating in any other country, taking into account communication, transportation and other costs arising from differences between location of facilities of the applicant and the conformity assessment body.

#### *Article 5.7*

### **Transparency**

The Parties acknowledge the importance of transparency with regard to the preparation, adoption and application of standards, technical regulations and conformity assessment procedures. In that regard, the Parties affirm their transparency obligations under the TBT Agreement. Each Party shall:

- (a) take the other Party's comments into account where a part of the process of developing a technical regulation is open to public consultation, and provide, upon request, written responses in a timely manner to the comments made by the other Party;
- (b) ensure that economic operators and other interested persons of the other Party are allowed to participate in any formal public consultation process concerning the development of technical regulations, on terms no less favourable than those accorded to its own legal or natural persons;
- (c) further to subparagraph 1(a) of Article 5.4 (Technical Regulations), in cases where impact assessments are carried out, inform the other Party, upon request, of the outcome of the impact assessment of the proposed technical regulation;
- (d) when making notifications in accordance with Article 2.9.2 or 5.6.2 of the TBT Agreement:

- (i) allow at least a period of 60 days, following the notification, for the other Party to provide comments in writing to the proposal and, where practicable, give due consideration to reasonable requests for extending that period;
  - (ii) provide the electronic version of the notified text;
  - (iii) provide, in case the notified text is not in one of the official WTO languages, a detailed and comprehensive description of the content of the measure in the WTO notification format;
  - (iv) reply in writing to written comments received from the other Party on the proposal, no later than the date of publication of the final technical regulation or conformity assessment procedure; and
  - (v) provide information on the adoption and the entry into force of the notified measure and the adopted final text through an addendum to the original notification;
- (e) allow sufficient time between the publication of technical regulations and their entry into force for economic operators of the other Party to adapt, except where urgent problems of safety, health, environmental protection or national security arise or threaten to arise;
- (f) ensure that all technical regulations and mandatory conformity assessment procedures adopted and in force are publicly available on official websites and free of charge; and
- (g) ensure that the enquiry point, established in accordance with Article 10.1 of the TBT Agreement, provides information and answers in one of the official WTO languages to reasonable enquiries from the other Party or from interested persons of the other Party on adopted technical regulations, conformity assessment procedures and standards.

#### *Article 5.8*

### **Market Surveillance**

The Parties shall:

- (a) exchange views on market surveillance and enforcement activities;
- (b) ensure that market surveillance functions are carried out by the competent authorities and that no conflicts of interest exist between the market surveillance function and the conformity assessment function; and
- (c) ensure that there are no conflicts of interest between market surveillance bodies and the economic operators subject to control or supervision.

#### *Article 5.9*

### **Marking and Labelling**

1. The Parties note that a technical regulation may include or deal exclusively with marking or labelling requirements. When a Party's technical regulations contain mandatory marking or labelling requirements, that Party shall observe the principles of Article 2.2 of the TBT Agreement, in particular, that technical regulations shall not be prepared with a view to, or with the effect of, creating unnecessary obstacles to international trade, and that they shall not be more trade restrictive than necessary to fulfil a legitimate objective.

2. When requiring mandatory marking or labelling of products, a Party shall:

- (a) only require information which is relevant for consumers or users of the product or which indicates the product's conformity with the mandatory technical requirements;

- (b) not require any prior approval, registration or certification of the labels or markings of products as a precondition for placing on its market products that otherwise comply with its mandatory technical requirements, unless it is necessary in view of the risk of the products to human, animal or plant health or life, the environment or national security; this subparagraph is without prejudice to the right of the Party to require prior approval of the specific information to be provided on the label or marking in light of the relevant domestic regulations;
- (c) in the event that it requires the use of a unique identification number by economic operators, issue that number to the economic operators of the other Party without undue delay and on a non-discriminatory basis;
- (d) provided it is not misleading, contradictory or confusing in relation to the information required in the Party importing the goods, permit the following:
  - (i) information in other languages in addition to the language required in the Party importing the goods;
  - (ii) internationally accepted nomenclatures, pictograms, symbols or graphics; or
  - (iii) information in addition to that required in the Party importing the goods;
- (e) accept that labelling, including supplementary labelling or corrections to labelling, take place, where relevant, in authorised premises, such as in customs or bonded licensed warehouses at the point of import, in the importing Party prior to the distribution and sale of the product; the Party may require that the original labelling is not removed;
- (f) when it considers that the legitimate objectives under the TBT Agreement are not compromised, endeavour to accept non-permanent or detachable labels, or marking or labelling in the accompanying documentation rather than physically attached to the product.

#### *Article 5.10*

### **Cooperation and Trade Facilitation**

1. The Parties shall strengthen their cooperation in the field of standards, technical regulations and conformity assessment procedures with a view to increasing the mutual understanding of their respective systems and to facilitating trade between them. To that end, they may establish regulatory dialogues at both horizontal and sectoral levels.
2. The Parties shall aim to identify, develop and promote bilateral initiatives regarding standards, technical regulations and conformity assessment procedures that are appropriate for particular issues or sectors and which facilitate trade. Those initiatives may include:
  - (a) promoting good regulatory practices through regulatory cooperation, including the exchange of information, experiences and data, with a view to improving the quality and effectiveness of their standards, technical regulations and conformity assessment procedures and making efficient use of regulatory resources;
  - (b) using a risk-based approach to conformity assessment such as relying on a supplier's declaration of conformity for low-risk products and, where appropriate, reducing the complexity of technical regulations, standards and conformity assessment procedures;
  - (c) increasing the convergence of their standards, technical regulations and conformity assessment procedures with relevant international standards, guides or recommendations;

- (d) avoiding unnecessary divergence of approach in standards, technical regulations and conformity assessment procedures where no international standards, guides or recommendations exist;
- (e) promoting or enhancing cooperation between the Parties' respective organisations, public or private, responsible for standardisation, conformity assessment and metrology;
- (f) ensuring efficient interaction and cooperation between regulatory authorities at regional or international level; and
- (g) exchanging information, to the extent possible, about agreements and arrangements related to technical barriers to trade subscribed to at international level.

3. Upon request, a Party shall give due consideration to proposals for cooperation from the other Party under this Chapter. This cooperation shall be undertaken, *inter alia*, through dialogue in appropriate *fora*, joint projects, technical assistance and capacity-building programmes on standards, technical regulations and conformity assessment procedures in selected industrial areas, as mutually agreed.

#### Article 5.11

##### Consultations

1. A Party shall give prompt and favourable consideration to any request for consultations from the other Party on issues relating to the implementation of this Chapter.
2. In order to clarify or resolve issues referred to in paragraph 1, the Trade Committee may establish a working group with a view to identifying a workable and practical solution to facilitate trade. The working group shall comprise representatives of the Parties.

#### Article 5.12

#### *Article 6.6*

6. The exporting Party shall ensure compliance with the import requirements of the importing Party.
7. Each Party shall establish and update lists of regulated pests, using scientific terminology, and make such lists available to the other Party.
8. Phytosanitary import requirements shall be restricted to measures ensuring the respect for the appropriate level of protection of the importing Party, and limited to the regulated pests of concern to the importing Party. Without prejudice to Article 6 of the IPPC, a Party shall not impose or maintain phytosanitary measures for non-regulated pests.
9. A pest risk analysis undertaken by a Party shall be carried out without undue delay after the initial request of the exporting Party. In case of difficulties, the Parties shall agree within the SPS Committee on a time schedule for carrying out the pest risk analysis.

The exporting Party shall have 30 working days to comment on the draft report. Comments made by the exporting Party shall be attached to and, where appropriate, included in the final verification report which shall be delivered within 30 working days. If, during the verification, the importing Party identifies a significant human, animal or plant health risk, it shall inform the exporting Party as quickly as possible and in any case within 10 working days following the end of the verification.

#### Article 6.8

##### **Procedure for Listing of Establishments**

1. 4. If the importing Party rejects the request for approval, it should inform without delay the exporting Party of the reasons upon which that rejection was based.

#### Article 6.9

##### **Measures Linked to Animal and Plant Health**

2. The Parties recognise the concepts of pest-free areas, areas of low pest prevalence, protected zones and pest free production sites in accordance with the SPS Agreement and IPPC standards, guidelines or recommendations.

3. The Parties shall consider factors such as geographical location, ecosystems, epidemiological surveillance, and the effectiveness of the SPS controls.

4. The SPS Committee shall define in further detail the procedure for the recognition of the concepts referred to in paragraphs 1 and 2 taking into account the SPS Agreement and the OIE and IPPC standards, guidelines or recommendations.

5. When the importing Party assesses the self-determination of the animal or plant health status made by the exporting Party, it shall, in principle, base its own assessment of the animal or plant health status of the exporting Party or parts thereof on the information provided by the exporting Party in accordance with the SPS Agreement and the OIE and IPPC standards, guidelines or recommendations. The importing Party shall endeavour to provide the exporting Party its decision without undue delay after the request for assessment.

6. If the importing Party does not accept the self-determination of the animal or plant health status made by the exporting Party, it shall explain the reasons and, upon request by the exporting Party, enter into consultations as soon as possible to reach an alternative solution.

7. The exporting Party shall provide relevant evidence in order to objectively demonstrate to the importing Party that the animal or plant health status of those areas is likely to remain unchanged. For that purpose, the exporting Party shall, upon request by the importing Party, give the importing Party reasonable access for inspection, testing and other relevant procedures.

#### Article 6.10

#### **Equivalence**

1. The Parties recognise that the application of equivalence in Article 4 of the SPS Agreement is an important tool for trade facilitation and has mutual benefits for both exporting and importing countries.

2. Equivalence can be accepted for a specific SPS measure or SPS measures related to a certain product or categories of products, or on a systems-wide basis.

3. The importing Party shall accept the SPS measures and systems of the exporting Party as equivalent if the exporting Party objectively demonstrates that its measures achieve the importing Party's appropriate level of SPS protection. To facilitate a determination of equivalence, the importing Party shall, upon request, explain the objective of any relevant SPS measures to the other Party.

4. Within three months of the date of receipt by the importing Party of a request from the exporting Party, the Parties shall hold consultations in order to determine the equivalence of SPS measures and systems.

5. The importing Party shall make a determination of equivalence without undue delay after the exporting Party has demonstrated the equivalence of the proposed SPS measures and systems.

6. The importing Party shall accelerate the determination of equivalence in particular in respect of those products which it has historically imported from the exporting Party.

7. In case of multiple requests from the exporting Party, the Parties shall agree within the SPS Committee on a time schedule in accordance with which they shall initiate the process.

8. In accordance with Article 9 of the SPS Agreement, the importing Party shall give full consideration to the requests by the exporting Party for technical assistance to facilitate the implementation of this Article. This assistance may, *inter alia*, help to identify and implement measures which can be recognised as equivalent or to otherwise enhance market access.

9. The consideration by the importing Party of a request from the exporting Party for recognition of equivalence of its SPS measures with regard to a specific product shall not be in itself a reason to disrupt or suspend ongoing imports from that Party of that product. When the importing Party has made an equivalence determination, the Parties shall formally record it and apply it without delay to trade between them in the relevant area.

#### *Article 6.11*

### **Committee on Sanitary and Phytosanitary Measures**

It shall establish its rules of procedure at its first meeting. It shall meet in person, via teleconference, video-conference, or through other means as mutually agreed by the Parties.

3. The SPS Committee may propose to the Trade Committee to establish working groups which shall identify and address technical and scientific issues arising from this Chapter and explore opportunities for further collaboration on SPS matters of mutual interest.

4. The SPS Committee may address any matter related to the effective functioning of this Chapter, including facilitating communication and strengthening cooperation between the Parties. In particular it shall have the following responsibilities and functions:

- (a) developing the necessary procedures or arrangements for the implementation of this Chapter;
- (b) monitoring the progress in the implementation of this Chapter;
- (c) providing a forum for discussion of problems arising from the application of certain SPS measures with a view to reaching mutually acceptable solutions and promptly addressing any matters that could create unnecessary obstacles to trade between the Parties;

- (e) identifying, initiating and reviewing technical assistance projects and activities between the Parties; and
- (f) carrying out any other function as mutually agreed between the Parties.

  - (e) upon request of a Party, communicate progress achieved in processing the application for the authorisation of a particular product within 15 working days of the date of receipt of the request.
2. When a Party has made the information available either by notification to the WTO in accordance with the relevant rules and procedures, or by publication on its official publicly and free of charge accessible websites, the exchange of information pursuant to subparagraphs 1(c) to 1(e) shall not be required.
3. All notifications under this Chapter shall be made to the contact points referred to under Article 6.5 (Competent Authorities and Contact Points).

#### *Article 6.13*

#### **Consultations**

1. When a Party considers that an SPS measure affecting bilateral trade warrants further discussion, it may, through the contact points referred to under Article 6.5 (Competent Authorities and Contact Points), request full explanation and, if necessary, request consultations on that SPS measure. The other Party shall respond promptly to such requests.
2. The Parties shall make every effort to reach, within an agreed timeframe, a mutually acceptable solution through consultations. Should the consultations fail to resolve the matter, it shall be considered by the SPS Committee.

#### *Article 6.14*

#### **Emergency Measures**

1. Each Party shall notify the other Party in writing within two working days of the detection of any serious or significant risk to human, animal or plant life or health, including any food emergencies, affecting products for which trade between the Parties takes place.
2. Where a Party has serious concerns regarding a risk to human, animal or plant life or health affecting products for which trade between the Parties takes place, it may request consultations in accordance with Article 6.13 (Consultations). The consultations shall take place as soon as possible. Each Party shall endeavour to provide in due time all necessary information to avoid disruption in trade.

3. The importing Party may take, without previous notification, measures necessary to protect human, animal or plant life or health. For consignments in transport between the Parties, the importing Party shall consider the most suitable and proportional solution in order to avoid unnecessary disruptions to trade.

4. The Party taking the measures shall inform the other Party as soon as possible and in any case no later than 24 hours after the adoption of the measure. In those cases, a Party shall, upon request of the other Party, identify the part of the respective standard, technical regulation or conformity assessment procedure which substantially deviates from the relevant international standard and provide justification as to the reasons for the deviation.
3. If appropriate, the Parties shall specify technical regulations based on product requirements in terms of performance, including safety and environmental performance, rather than design or descriptive characteristics.
4. A Party accepting a supplier's declaration of conformity as a positive assurance of conformity shall endeavour not to require the submission of test results.
5. If a Party requires test reports, whether alone, as the basis of, or in conjunction with other assurances of conformity, or as positive assurance that a product is in conformity with its relevant standards or technical regulations, it shall endeavour to accept test reports in form of the International Electrotechnical Commission System of Conformity Assessment Schemes for Electrotechnical Equipment and Components (IECEE CB Scheme) Test Reports without requiring any further testing.

*Article 7.6***Exceptions**

1. This Chapter is subject to Articles 2.22 (General Exceptions), 8.53 (General Exceptions) and 9.3 (Security and General Exceptions).
2. Nothing in this Chapter shall be construed as preventing a Party from adopting or enforcing measures necessary for the safe operation of the energy networks concerned, or the safety of the energy supply, subject to the requirement that those measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties' products, service suppliers or investors under like circumstances, or a disguised restriction on trade and investment between the Parties.

*Article 7.7***Implementation and Cooperation**

1. The Parties shall cooperate and exchange information on any issues relating to the implementation of this Chapter in the relevant specialised committees established pursuant to Article 17.2 (Specialised Committees). Nothing in this Chapter shall prevent a Party from applying measures to regulate the entry of natural persons into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits <sup>(5)</sup> accruing to any Party under the terms of a specific commitment in this Chapter and its Annexes.
5. Nothing in this Chapter shall be construed as limiting the obligations of the Parties under Chapter 9 (Government Procurement) or to impose any additional obligation relating to government procurement.
6. This Chapter does not apply to subsidies granted by the Parties <sup>(6)</sup>, except for Article 8.8 (Performance Requirements).
7. A Party's decision not to issue, renew or maintain a subsidy or grant shall not constitute a breach of Article 8.8 (Performance Requirements) in the following circumstances:
  - (a) in the absence of any of the Party's specific commitments to the investor under law or contract to issue, renew, or maintain that subsidy or grant; or
  - (b) in accordance with any terms or conditions attached to the issuance, renewal or maintenance of the subsidy or grant.

For Viet Nam, "subsidy" includes investment incentives, and investment assistance such as production site assistance, human resources training and competitiveness strengthening activities, such as assistance for technology, research and development, legal aids, market information and promotion.

Accordingly, for a juridical person set up in accordance with the laws and regulations of Viet Nam and having only its registered office or central administration in the territory of Viet Nam, the Union shall only apply the benefits of this Agreement if that juridical person possesses an effective and continuous link with the economy of Viet Nam.

*Article 8.5***National Treatment**

1. In the sectors inscribed in its respective Schedule of Specific Commitments in Annexes 8-A (The Union's Schedule of Specific Commitments) or 8-B (Viet Nam's Schedule of Specific Commitments) and subject to any conditions and qualifications set out therein, each Party shall accord to investors of the other Party and to their enterprises, with respect to establishment in its territory, treatment no less favourable than that accorded, in like situations, to its own investors and to their enterprises.

2. A Party shall accord to investors of the other Party and to their enterprises<sup>(15)</sup>, with respect to the operation of those enterprises, treatment no less favourable than that accorded, in like situations, to its own investors and to their enterprises.

3. Notwithstanding paragraph 2 and, in the case of Viet Nam subject to Annex 8-C (Exemption for Viet Nam on National Treatment), a Party may adopt or maintain any measure with respect to the operation of an enterprise provided that such measure is not inconsistent with the commitments set out in Annex 8-A (The Union's Schedule of Specific Commitments) or 8-B (Viet Nam's Schedule of Specific Commitments), respectively, where such measure is:

<sup>(15)</sup> For the purposes of this paragraph and Article 8.6 (Most-Favoured-Nation Treatment), "their enterprises" means enterprises of investors of a Party in existence in the territory of the other Party on the date of entry into force of this Agreement, or set up or acquired thereafter, that have been established in accordance with that other Party's applicable laws and regulations.

- (a) a measure that is adopted on or before the date of entry into force of this Agreement;
- (b) a measure referred to in subparagraph (a) that is being continued, replaced or amended after the date of entry into force of this Agreement, provided the measure is no less consistent with paragraph 2 after it is continued, replaced or amended than the measure as it existed prior to its continuation, replacement or amendment; or
- (c) a measure not falling within subparagraph (a) or (b), provided it is not applied in respect of, or in a way that causes loss or damage to, enterprises established in the territory of the Party before the date of entry into force of such measure <sup>(16)</sup>.

#### Article 8.6

##### **Most-Favoured-Nation Treatment**

1. Each Party shall accord to investors of the other Party and to their enterprises as regards their operation in its territory, treatment no less favourable than the treatment it accords, in like situations, to investors of a third country and their enterprises.

2. Paragraph 1 does not apply to the following sectors:

- (a) communication services, except for postal services and telecommunication services;
- (b) recreational, cultural and sporting services;
- (c) fishery and aquaculture;
- (d) forestry and hunting; and
- (e) mining, including oil and gas.

3. Paragraph 1 shall not be construed as obliging a Party to extend to the investors of the other Party or their enterprises the benefit of any treatment granted pursuant to any bilateral, regional or multilateral agreement that entered into force before the date of entry into force of this Agreement.

4. Paragraph 1 shall not be construed as obliging a Party to extend to the investors of the other Party or their enterprises the benefit of:

- (a) any treatment granted pursuant to any bilateral, regional or multilateral agreement which includes commitments to abolish substantially all barriers to the operation of enterprises among the parties or requires the approximation of legislation of the parties in one or more economic sectors <sup>(17)</sup>;
- (b) any treatment resulting from any international agreement for the avoidance of double taxation or other international agreement or arrangement relating wholly or mainly to taxation; or
- (c) any treatment resulting from measures providing for the recognition of qualifications, licences or prudential measures in accordance with Article VII of GATS or its Annex on Financial Services.

<sup>(16)</sup> For the purposes of this subparagraph, the Parties understand that if a Party has provided for a reasonable phase-in period for the implementation of a measure or if that Party has made any other attempt to address the effects of the measure on enterprises established before the date of entry into force of the measure, those factors shall be taken into account in determining whether the measure causes loss or damage to enterprises made before the date of entry into force of the measure.

<sup>(17)</sup> For greater certainty, the ASEAN Economic Community falls within the concept of a regional agreement under this subparagraph.

5. For greater certainty, the "treatment" referred to in paragraph 1 does not include dispute resolution procedures or mechanisms, such as resolution of investment disputes between investors and states, provided for in any other bilateral, regional or multilateral agreements. Substantive obligations in such agreements do not in themselves constitute "treatment" and thus cannot be taken into account when assessing a breach of this Article. Measures by a Party pursuant to those substantive obligations shall be considered "treatment".

6. This Article shall be interpreted in accordance with the principle of *ejusdem generis* <sup>(18)</sup>.

#### Article 8.7

- (f) to transfer technology, a production process or other proprietary knowledge to a natural person or enterprises in its territory; or
- (g) to supply exclusively from the territory of the Party a good produced or a service provided by the enterprise to a specific regional or world market.

2. In the sectors inscribed in its Schedule of Specific Commitments in Annex 8-A (The Union's Schedule of Specific Commitments) or 8-B (Viet Nam's Schedule of Specific Commitments), respectively, and subject to any conditions and qualifications set out therein, a Party shall not condition the receipt or continued receipt of an advantage, in connection with the establishment or operation of an enterprise of an investor of a Party or of a third country in its territory, on compliance with any of the following requirements:

3. Paragraph 2 shall not be construed as preventing a Party from conditioning the receipt or continued receipt of an advantage in connection with any enterprise in its territory on compliance with a requirement to locate production, provide a service, train or employ workers, construct or expand particular facilities, or carry out research and development in its territory.

4. Subparagraph 1(f) shall not be construed as preventing the application of a requirement imposed or a commitment or undertaking enforced by a court, administrative tribunal or competition authority, in order to remedy an alleged violation of competition laws.

5. Subparagraphs 1(a) to 1(c), 2(a) and 2(b) do not apply to qualification requirements for goods or services with respect to participation in export promotion and foreign aid programmes.

6. For greater certainty, subparagraphs 2(a) and 2(b) do not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

7. For greater certainty, paragraphs 1 and 2 do not apply to any requirement other than the requirements set out in those paragraphs.

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

<sup>(19)</sup> Without prejudice to the scope of activities which constitute cabotage under domestic laws and regulations, national maritime cabotage under this Section covers transportation of passengers or goods between a port or point located in a Member State of the Union or in Viet Nam and another port or point located in that same Member State of the Union or in Viet Nam, including on its continental shelf, as provided for in UNCLOS, and traffic originating and terminating in the same port or point located in a Member State of the Union or in Viet Nam.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Party compared to like services or service suppliers of the other Party.

4. Specific commitments assumed under this Article shall not be construed as requiring any Party to compensate for inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

#### Article 8.12

### Schedule of Specific Commitments

The sectors liberalised by each Party pursuant to this Section and the terms, limitations, conditions and qualifications referred to in Articles 8.10 (Market Access) and 8.11 (National Treatment) are set out in each Party's Schedule of Specific Commitments included in Appendix 8-A-1 to Annex 8-A (The Union's Schedule of Specific Commitments) or in Appendix 8-B-1 to Annex 8-B (Viet Nam's Schedule of Specific Commitments), respectively.

(a) "business sellers" means natural persons who are representatives of a supplier of goods or services of a Party seeking entry and temporary stay in the territory of the other Party for the purpose of negotiating the sale of services or goods, or entering into agreements to sell services or goods for that supplier and who do not engage in supplying the services or the goods; they do not engage in making direct sales to the general public and do not receive remuneration from a source located within the host Party, nor are they commission agents;

(b) "business visitors for establishment purposes" means natural persons working in a senior position within a juridical person of a Party who are responsible for setting up an enterprise of such juridical person, provided they do not offer or provide services or engage in any other economic activity than required for establishment purposes and they do not receive remuneration from a source located within the host Party;

(c) "contractual services suppliers" means natural persons employed by a juridical person of a Party which is not an agency for placement and supply services of personnel nor acting through such an agency, which has not been established in the territory of the other Party and which has concluded a *bona fide* contract<sup>(20)</sup> to supply services with a final consumer in the other Party, requiring the presence on a temporary basis of its employees in that Party, in order to fulfil the contract to provide services;

<sup>(20)</sup> The service contract shall comply with the requirements of the laws, and regulations and requirements of the Party where the contract is executed.

- (d) "independent professionals" means natural persons engaged in the supply of a service and established as self-employed in the territory of a Party who have not been established in the territory of the other Party and who have concluded a *bona fide* contract <sup>(21)</sup> other than through an agency for placement and supply services of personnel to supply services with a final consumer in the other Party, requiring their presence on a temporary basis in that Party in order to fulfil the contract to provide services;
- (e) "intra-corporate transferees" means natural persons who have been employed by a juridical person or its branch or have been partners in it for at least one year and who are temporarily transferred to an enterprise of the juridical person in the territory of the other Party, provided that the natural person concerned belongs to the categories of managers or executives, specialists or trainee employees;
- (f) "managers or executives" means natural persons working in a senior position within a juridical person of a Party, who primarily direct the management of the enterprise <sup>(22)</sup> in the other Party, and who are receiving general supervision or direction principally from the board of directors or from stockholders of the business or their equivalent, including at least:
- (i) directing the enterprise or a department or sub-division thereof;

2. The entry and temporary stay shall be:

- (a) for managers or executives, a period of up to three years;

<sup>(21)</sup> The service contract shall comply with the requirements of the laws, and regulations and requirements of the Party where the contract is executed.

<sup>(22)</sup> For greater certainty, while managers or executives do not directly perform tasks concerning the actual supply of the services, this does not prevent them, in the course of executing their duties, from performing such tasks as may be necessary for the provision of the services.

<sup>(23)</sup> The recipient enterprise may be required to submit a training programme covering the duration of the stay for prior approval, demonstrating that the purpose of the stay is for training. For Czechia, Germany, Spain, France, Hungary and Austria, training must be linked to the university degree which has been obtained.

#### *Article 8.15*

#### *Article 8.16*

#### **Contractual Service Suppliers**

1. The Parties affirm their respective obligations arising from their commitments under GATS with respect to the entry and temporary stay of contractual services suppliers.

2. Each Party shall allow the supply of services into its territory by contractual services suppliers of the other Party, subject to the conditions specified in paragraph 3 and any reservations listed in Appendix 8-A-3 to Annex 8-A (The Union's Schedule of Specific Commitments) and Appendix 8-B-2 to Annex 8-B (Viet Nam's Schedule of Specific Commitments), respectively, for the following sectors or sub-sectors:

  - (b) the natural persons entering the other Party should be offering such services as employees of the juridical person supplying the services for at least two years immediately preceding the date of submission of an application for entry into the other Party; in addition, the natural persons shall possess, at the date of submission of an application for entry into the other Party, at least five years professional experience <sup>(27)</sup> in the sector of activity which is the subject of the contract;
  - (c) the natural persons entering the other Party shall possess:
    - (i) a university degree or a qualification demonstrating knowledge of an equivalent level <sup>(28)</sup>; and
    - (ii) professional qualifications in the case that this is required to exercise an activity pursuant to the laws, regulations or legal requirements of the Party where the service is supplied;

#### *Article 8.17*

#### **Independent Professionals**

Five years after the date of entry into force of this Agreement, the Parties shall review this Section to consider establishing the modalities to extend the provisions therein to independent professionals.

<sup>(27)</sup> For greater certainty, this period is calculated after the natural persons have reached the age of majority.

<sup>(28)</sup> If the degree or qualification has not been obtained in the Party where the service is supplied, that Party may evaluate whether this degree or qualification is equivalent to a university degree required in its territory.

<sup>(29)</sup> For the Union, the cumulative period of not more than six months has to be within any 12-month period.

## Section E

**Regulatory framework**

## Sub-section 1

**Domestic regulation***Article 8.18***Scope and Definitions**

1. This Sub-Section applies to measures by the Parties relating to licensing requirements and procedures, qualification requirements and procedures that affect:

- (a) cross-border supply of services;
- (b) establishment and maintenance of juridical or natural persons; and
- (c) temporary stay in their respective territories of categories of natural persons.

2. This Sub-Section only applies to sectors for which a Party has undertaken specific commitments and to the extent that those specific commitments apply.

3. This Sub-Section does not apply to measures to the extent that they constitute limitations as scheduled under Article 8.4 (Market Access), 8.5 (National Treatment), 8.10 (Market Access) or 8.11 (National Treatment).

4. For the purposes of this Section:

- (a) "competent authority" means any central, regional or local government or authority or non-governmental body in the exercise of powers delegated by central or regional or local governments or authorities, which takes a decision concerning the authorisation to supply a service, including through establishment or concerning the authorisation to establish an economic activity other than services;
- (b) "licensing procedures" means administrative or procedural rules that a natural or a juridical person, seeking authorisation to carry out the activities as referred to in paragraph 1, including the amendment or renewal of a licence, must adhere to in order to demonstrate compliance with licensing requirements;
- (c) "licensing requirements" means substantive requirements, other than qualification requirements, with which a natural or a juridical person is required to comply in order to obtain, amend or renew authorisation to carry out the activities as referred to in paragraph 1;
- (d) "qualification procedures" means administrative or procedural rules to which a natural person must adhere in order to demonstrate compliance with qualification requirements, for the purpose of obtaining authorisation to supply a service; and
- (e) "qualification requirements" means substantive requirements relating to the competence of a natural person to supply a service, and which are required to be demonstrated for the purpose of obtaining authorisation to supply a service.

*Article 8.19***Conditions for Licensing and Qualification**

1. Each Party shall ensure that measures relating to licensing requirements and procedures, as well as qualification requirements and procedures, are based on criteria which are:

- (a) clear;

- (b) objective and transparent; and
- (c) pre-established and accessible to the public and interested persons.

2. An authorisation or a licence shall, subject to availability, be granted as soon as it is established, on the basis of an appropriate examination, that the conditions for obtaining an authorisation or licence have been met.

3. Each Party shall maintain or institute judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected investor or service supplier, for a prompt review of, and where justified, appropriate remedies for, administrative decisions affecting establishment, cross-border supply of services or temporary presence of natural persons for business purposes. Where such procedures are not independent of the authority entrusted with the administrative decision concerned, each Party shall ensure that the procedures provide for an objective and impartial review.

This paragraph shall not be construed as requiring a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

#### *Article 8.20*

### **Licensing and Qualification Procedures**

1. Licensing and qualification procedures and formalities shall not in themselves constitute a restriction on the supply of a service or the pursuit of any other economic activity. Each Party shall endeavour to make such procedures and formalities as simple as possible and shall ensure that such procedures and formalities do not unduly complicate or delay the provision of the service. Any licensing fees<sup>(30)</sup> which the applicants may incur from their applications should be reasonable and shall not in themselves restrict the supply of the relevant service.

2. Each Party shall ensure that the procedures used by, and the decisions of, the competent authority in the licensing or authorisation process are impartial with respect to all applicants. The competent authority should reach its decisions in an independent manner and not be accountable to any person supplying the services or carrying out the economic activities for which the licence or authorisation is required.

3. In case specific time periods for applications exist in each Party's laws and regulations, an applicant shall be allowed a reasonable period of time for the submission of an application. The competent authority shall initiate the processing of an application without undue delay. Where possible, applications should be accepted in electronic format under the same conditions of authenticity as paper submissions.

4. Each Party shall ensure that the processing of an application, including the reaching of a final decision, is completed within a reasonable timeframe after the date of the submission of a complete application. Each Party shall endeavour to establish the normal timeframe for processing an application.

5. The competent authority shall inform the applicant within a reasonable period of time after the receipt of an application which it considers incomplete, identify, to the extent feasible, the additional information required to complete the application, and provide the opportunity to correct deficiencies.

6. Authenticated copies should be accepted, whenever possible, in place of original documents.

7. If an application is rejected by the competent authority, the applicant shall be informed in writing and without undue delay. In principle, the applicant shall, upon formal request, also be informed of the reasons for rejection of the application. An applicant should be permitted, within reasonable time limits, to resubmit an application.

<sup>(30)</sup> Licensing fees do not include payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

8. Each Party shall ensure that a licence or an authorisation, once granted, enters into effect without undue delay in accordance with the terms and conditions specified therein.

#### Sub-section 2

### Provisions of general application

#### Article 8.21

### Mutual Recognition of Professional Qualifications

1. Nothing in this Article shall prevent a Party from requiring that natural persons possess the necessary qualifications and professional experience specified in the territory where the service is supplied, for the sector of activity concerned.

2. The Parties shall encourage the relevant professional bodies or respective authorities, as appropriate, in their respective territories to develop and provide a joint recommendation on mutual recognition of professional qualifications to the Committee on Investment, Trade in Services, Electronic Commerce and Government Procurement established pursuant to Article 17.2 (Specialised Committees). Such a joint recommendation shall be supported by evidence of:

(a) the economic value of an envisaged agreement on mutual recognition of professional qualifications (hereinafter referred to as "Mutual Recognition Agreement"); and

(b) the compatibility of the respective regimes, such as the extent to which the criteria applied by each Party for the authorisation, licensing, operation and certification of entrepreneurs and service suppliers are compatible.

3. Upon receipt of a joint recommendation, the Committee on Investment, Trade in Services, Electronic Commerce and Government Procurement shall, within a reasonable period of time, review the joint recommendation with a view to determining whether it is consistent with this Agreement.

4. Where, on the basis of the information provided for in paragraph 2, the joint recommendation has been found to be consistent with this Agreement, the Parties shall take necessary steps to negotiate, through their competent authorities or designees authorised by a Party, a Mutual Recognition Agreement.

#### Sub-section 3

### Computer services

#### Article 8.22

### Understanding on Computer Services

1. To the extent that trade in computer services is liberalised in accordance with Section B (Liberalisation of Investment), Section C (Cross-Border Supply of Services) and Section D (Temporary Presence of Natural Persons for Business Purposes), the Parties shall comply with paragraphs 2 to 4.

2. The Parties understand that CPC <sup>(31)</sup> 84, which is the United Nations code used for describing computer and related services, covers the basic functions used to provide all computer and related services. Technological developments have led to the increased offering of these services as a bundle or package of related services that can include some or all of these basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions.

<sup>(31)</sup> CPC means the Central Product Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, N° 77, CPC prov, 1991.

3. Computer and related services, regardless of whether they are delivered via a network, including the Internet, include all services that provide:

- (a) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems;
- (b) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programmes;
- (c) data processing, data storage, data hosting or database services;
- (d) maintenance and repair services for office machinery and equipment, including computers; or
- (e) training services for staff of clients, relating to computer programmes, computers or computer systems, and not elsewhere classified.

4. The Parties understand that, in many cases, computer and related services enable the provision of other services<sup>(32)</sup> by both electronic and other means. In these cases, it is important to distinguish between the computer and related services, such as web-hosting or application hosting, and the other service enabled by the computer and related service. The other service, regardless of whether it is enabled by a computer and related service, is not covered by CPC 84.

#### Sub-section 4

#### Postal services<sup>(33)</sup>

#### Article 8.23

#### **Prevention of Anti-Competitive Practices in the Postal Services Sector**

Each Party shall maintain or introduce appropriate measures for the purposes of preventing suppliers who, alone or together, have the ability to affect materially the terms of participation in the relevant markets for postal services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

#### Article 8.24

#### **Licences**

1. Where a Party requires a licence for providing postal services, it shall make publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
- (b) the terms and conditions of such licence.

2. The reasons for the denial of a licence shall be made known to the applicant upon request and an appeal procedure through a relevant regulatory body shall be established by each Party. The appeal procedure shall be transparent, non-discriminatory and based on objective criteria.

<sup>(32)</sup> E.g., W/120.1.A.b. (accounting, auditing and bookkeeping services), W/120.1.A.d (architectural services), W/120.1.A.h (medical and dental services), W/120.2.D (audiovisual services), W/120.5. (educational services).

<sup>(33)</sup> This Sub-Section applies to both CPC 7511 and CPC 7512.

*Article 8.25***Postal Regulatory Authority**

The regulatory body shall be separate from, and not accountable to, any supplier of postal services. The decisions of and the procedures used by the regulatory body shall be impartial with respect to all market participants.

To that end, a Party that retains ownership or control of providers of telecommunications networks or services shall ensure that regulatory actions, decisions or measures taken by the regulatory authority with respect to such providers do not discriminate against and, as a result, materially disadvantage any of their competitors.
3. The regulatory authority shall be sufficiently empowered to regulate the sector, and have adequate financial and human resources to carry out the tasks assigned to it.
4. The tasks to be undertaken by a regulatory authority shall be made public in an easily accessible and clear form, in particular when those tasks are assigned to more than one body.
5. The powers of the regulatory authority shall be exercised transparently and in a timely manner.

  3. The applicant for a licence shall be able to seek recourse before an appeal body in case a licence has been denied.
  4. Any licensing fees <sup>(35)</sup> which the applicants may incur from their application to get a licence shall be reasonable and shall not in themselves restrict the supply of the service.

*Article 8.30*

**Scarce Resources**

1. Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, timely, transparent and non-discriminatory manner.
2. The current state of allocated frequency bands shall be made publicly available but detailed identification of radio spectrum allocated for specific government uses shall not be required.
3. Decisions on allocating and assigning spectrum and frequency management are not measures that are *per se* inconsistent with Article 8.4 (Market Access), Article 8.8 (Performance Requirements) and 8.10 (Market Access). Accordingly, each Party retains the right to exercise its spectrum and frequency management policies, which may affect the number of suppliers of public telecommunications services, provided that this is done in a manner that is consistent with this Chapter. The Parties also retain the right to allocate frequency bands in a manner that takes into account existing and future needs.

*Article 8.31*

**Access to and Use of Public Telecommunications Networks and Services**

1. Each Party shall ensure that all service suppliers of the other Party have access to, and use of, any public telecommunications network and service of a major supplier <sup>(36)</sup>, including private leased circuits, offered within or across the borders of that Party on reasonable, non-discriminatory and transparent terms and conditions, including as set out in paragraphs 2 and 3.

  - (a) purchase or lease, and attach, terminal or other equipment which interfaces with the public telecommunications network;
  - (b) interconnect private leased or owned circuits with public telecommunications networks and services in its territory, or across its borders, or with circuits leased or owned by other service suppliers; and
  - (c) use operating protocols of their choice, other than as necessary to ensure the availability of telecommunications networks and services to the public generally.

<sup>(35)</sup> Licensing fees do not include payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

<sup>(36)</sup> For the purposes of this Article, the designation of a supplier of public telecommunications networks and services as a major supplier shall be in accordance with the domestic laws, regulations and procedures of each Party.

3. Each Party shall ensure that all service suppliers of the other Party may use public telecommunications networks and services for the movement of information in its territory or across its borders, including for intra-corporate communications of such service suppliers and for access to information contained in databases or otherwise stored in machine-readable form in the territory of either Party. Any new or amended measures of a Party significantly affecting such use shall be notified to the other Party and shall be subject to consultations.

3. For public telecommunications services, each Party shall ensure interconnection with a major<sup>(37)</sup> supplier at any technically feasible point in the network. Such interconnection shall be provided:

- (a) under non-discriminatory terms, conditions (including in relation to technical standards and specifications) and rates, and of a quality no less favourable than that provided for such major supplier's own like services, or for like services of non-affiliated suppliers, or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including in relation to technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

4. The procedures applicable for interconnection to a major supplier shall be made publicly available.

5. Major suppliers shall make publicly available either their interconnection agreements or their reference interconnection offers where appropriate.

#### *Article 8.33*

<sup>(37)</sup> For the purposes of this Article, the designation of a supplier of public telecommunications networks and services as a major supplier shall be in accordance with the domestic laws, regulations and procedures of each Party.

*Article 8.34***Universal Service**

1. Each Party shall have the right to define the kind of universal service obligation it wishes to maintain. Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.
2. The designation of universal service suppliers shall be made through an efficient, transparent and non-discriminatory mechanism.

*Article 8.35***Number Portability**

- (b) each Party shall grant to ships flying the flag of the other Party or operated by service suppliers of the other Party treatment no less favourable than that accorded to its own ships, with regard to, *inter alia*, access to ports, use of infrastructure and use of maritime auxiliary services, as well as related fees and charges, customs facilities and access to berths and facilities for loading and unloading;

8. For recurring contracts that consist, due to an individual requirement of the procurement, in awarding more than one contract, or in awarding contracts in separate parts, the calculation of the estimated maximum total value shall be based on:

- (a) the value of recurring contracts of the same type of good or service awarded during the preceding 12 months or the procuring entity's preceding fiscal year, adjusted, where possible, to take into account anticipated changes in the quantity or value of the good or service being procured over the following 12 months; or
- (b) the estimated value of recurring contracts of the same type of good or service to be awarded during the 12 months following the initial contract award or the procuring entity's fiscal year.

#### Article 9.3

#### Security and General Exceptions

1. Nothing in this Agreement shall be construed as preventing a Party from taking any action or not disclosing any information that it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. Subject to the requirement that such measures are not applied in a manner which would constitute a disguised restriction on international trade, nothing in this Agreement shall be construed as preventing a Party from imposing or enforcing measures:

- (a) necessary to protect public morals, order or safety;
- (b) necessary to protect human, animal or plant life or health;
- (c) necessary to protect intellectual property; or
- (d) relating to goods or services of persons with disabilities, philanthropic institutions, non-profit institutions carrying out philanthropic activities, or prison labour.

**General Principles**

National Treatment and Non-Discrimination

1. With respect to any measure regarding covered procurement, each Party, including its procuring entities, shall accord immediately and unconditionally to the goods and services of the other Party and to the suppliers of the other Party offering the goods or services of both Parties, treatment no less favourable than the treatment the Party, including its procuring entities, accords to domestic goods, services and suppliers.

2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

- (a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or
- (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

Compliance and Conduct of Procurement

3. Each Party shall ensure that its procuring entities comply with this Chapter in conducting covered procurements.

4. A procuring entity shall conduct covered procurement in a transparent and impartial manner that:

- (a) is consistent with this Chapter, by using one of the following methods of open tendering, selective tendering or limited tendering; and
- (b) avoids conflicts of interest and prevents corrupt practices, in accordance with relevant domestic laws and regulations.

5. Nothing in this Chapter shall prevent a Party, including its procuring entities, from developing new procurement policies, procedures, or contractual means, provided that they are not inconsistent with this Chapter.

#### Use of Electronic Means

6. The Parties shall endeavour to conduct covered procurement by electronic means. This includes the publication of procurement information, notices and tender documentation, the reception of tenders and, where appropriate, the use of electronic auctions.

7. When conducting covered procurement by electronic means, a procuring entity shall:

- (a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and
- (b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including the establishment of the time of receipt and the prevention of inappropriate access.

#### Rules of Origin

8. A Party shall not apply to covered procurement of goods or services imported or supplied from the other Party rules of origin that are different compared to the rules of origin it applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Party.

#### Offsets

9. With regard to covered procurement and subject to Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam), a Party, including its procuring entities, shall not seek, take account of, impose or enforce any offset.

#### Measures Not Specific to Procurement

10. Paragraphs 1 and 2 do not apply to:

- (a) customs duties and charges of any kind imposed on, or in connection with, importation;
- (b) the method of levying such duties and charges; and
- (c) other import regulations or formalities and measures affecting trade in services other than measures governing covered procurement.

- (a) promptly publish any measure of general application, including standard contract terms mandated by law or regulation, regarding covered procurement in officially designated paper or electronic medium; and

2. Section H (Publication of Procurement Information) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam) lists the paper or electronic medium through which the Party publishes the information described in paragraph 1 and the notices required by Article 9.6 (Notices), paragraph 7 of Article 9.8 (Qualification of Suppliers) and paragraph 3 of Article 9.17 (Post-Award Information).

*Article 9.6***Notices**

#### Summary Notice

3. For each case of intended procurement, a procuring entity shall publish a summary notice in English that is readily accessible free of charge through an electronic medium listed in Section H (Publication of Procurement Information) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam), at the same time as the publication of the notice of intended procurement. The summary notice shall contain at least the following information:

The implementation of this paragraph is subject to the realisation of the initiative on technical and financial assistance for the development, establishment and maintenance of an automatic system for the translation and publication of summary notices in English in Viet Nam.

#### Notice of Planned Procurement

5. Procuring entities are encouraged to publish as early as possible in each fiscal year a notice regarding their future procurement plans (hereinafter referred to as "notice of planned procurement"), which should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement.

6. A procuring entity covered by Section B (Sub-Central Government Entities) or C (Other Covered Entities) may use a notice of planned procurement as a notice of intended procurement provided that the notice of planned procurement includes as much of the information referred to in paragraph 2 as is available to the procuring entity, and a statement that interested suppliers should express their interest in the procurement to the procuring entity.

*Article 9.7***Conditions for Participation**

1. A procuring entity shall limit any conditions for participation in a covered procurement to those that ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake that procurement.
2. In establishing the conditions for participation, a procuring entity:
  - (a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a given Party or that the supplier has prior work experience in the territory of that Party;
  - (b) may require relevant prior experience where essential to meet the requirements of the procurement.
3. In assessing whether a supplier satisfies the conditions for participation, the procuring entity:
  - (a) shall evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
  - (b) shall base its evaluation solely on the conditions that the procuring entity has specified in advance in notices or tender documentation.
4. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:
  - (a) bankruptcy;
  - (b) false declarations;
  - (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;
  - (d) final judgments by a judicial court in respect of serious crimes or other serious offences;
  - (e) evidence of serious professional misconduct; or
  - (f) failure to pay taxes.

*Article 9.8***Qualification of Suppliers**

## Registration Systems and Qualification Procedures

1. A Party may maintain a supplier registration system under which interested suppliers are required to register and provide certain information.
2. Each Party shall ensure that:
  - (a) its procuring entities make efforts to minimise differences in their qualification procedures; and

(b) where its procuring entities maintain registration systems, the entities make efforts to minimise differences in their registration systems.

3. A Party shall not adopt or apply any registration system or qualification procedure:

(a) with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement; or

(b) use such registration system or qualification procedure to prevent or delay the inclusion of suppliers of the other Party on a list of suppliers or to prevent such suppliers from being considered for a particular procurement.

#### Selective Tendering

4. Where a procuring entity intends to use selective tendering, the procuring entity shall:

(a) include in the notice of intended procurement at least the information specified in subparagraphs 2(a), 2(b), 2(f), 2(g), 2(j), 2(k) and 2(l) of Article 9.6 (Notices) and invite suppliers to submit a request for participation; and

(b) provide, by the commencement of the time period for tendering, at least the information in subparagraphs 2(c), 2(d), 2(e), 2(h) and 2(i) of Article 9.6 (Notices) to the qualified suppliers that it notifies as specified in subparagraph 3(b) of Article 9.12 (Time Periods).

5. The procuring entity shall:

(a) publish the notice sufficiently in advance of the procurement to allow for interested suppliers to request participation in the procurement; and

(b) allow all qualified suppliers to submit a tender, unless the procuring entity has stated in the notice of intended procurement a limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

6. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 4, a procuring entity shall ensure that those documents are made available at the same time to all the qualified suppliers selected in accordance with paragraph 5.

#### Multi-Use Lists

7. A procuring entity may maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion on the list is:

(a) published annually; and

(b) where published by electronic means, made available continuously,

in the appropriate medium listed in Section H (Publication of Procurement Information) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam).

8. The notice provided for in paragraph 7 shall include:
- (a) a description of the goods or services, or categories thereof, for which the list may be used;
  - (b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity will use to verify that a supplier satisfies the conditions;
  - (c) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the list;
  - (d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list; and
  - (e) an indication that the list may be used for procurement covered by this Chapter.
9. Notwithstanding paragraph 7, where a multi-use list is valid for three years or less, a procuring entity may publish the notice referred to in paragraph 7 only once, at the beginning of the period of validity of the list, provided that the notice:
- (a) states the period of validity and that further notices will not be published; and
  - (b) is published by electronic means and is made available continuously during the period of its validity.
10. A procuring entity shall allow all suppliers included in a multi-use list to submit tenders for a relevant procurement.
11. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.
12. Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and all required documents within the time period provided for in paragraph 2 of Article 9.12 (Time Periods), a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the procuring entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the procuring entity is not able to complete the examination of the request within the time period allowed for the submission of tenders.

#### Sub-Central Government and other Covered Entities

13. A procuring entity covered by Section B (Sub-Central Government Entities) or C (Other Covered Entities) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam) may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement, provided that:

- (a) the notice is published in accordance with paragraph 7 and includes the information required under paragraph 8, as much of the information required under paragraph 2 of Article 9.6 (Notices) as is available, and a statement that it constitutes a notice of intended procurement or that only the suppliers on the multi-use list will receive further notices of procurement covered by the multi-use list; and

- (b) the procuring entity promptly provides to suppliers that have expressed an interest in a given procurement to the procuring entity sufficient information to permit them to assess their interest in the procurement, including all remaining information required under paragraph 2 of Article 9.6 (Notices), to the extent such information is available.

14. A procuring entity covered by Section B (Sub-Central Government Entities) or C (Other Covered Entities) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam) may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 11 to tender in a given procurement where there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

#### Information on Procuring Entity Decisions

15. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

16. Where a procuring entity rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the procuring entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

#### Article 9.9

#### Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating an unnecessary obstacle to trade between the Parties.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

(a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and

(b) base the technical specification on international standards, where they exist; otherwise, on national technical regulations, recognised national standards or building codes.

3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity shall indicate that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the procuring entity includes words such as "or equivalent" in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

#### *Article 9.10*

### **Market Consultations**

1. Before launching a procurement, procuring entities may conduct market consultations with a view to preparing the procurement, notably for the development of technical specifications, provided that, where market research is performed by a supplier in the context of covered procurement, such procurement is subject to the provisions of this Chapter.

2. For that purpose, procuring entities may seek or accept advice from independent experts or authorities or from market participants. That advice may be used in the planning and conduct of the procurement procedure, provided that it does not have the effect of distorting competition and does not result in a violation of the principles of non-discrimination and transparency.

#### *Article 9.11*

### **Tender Documentation**

#### Tender Documentation

1. A procuring entity shall promptly make available or provide upon request to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

- (a) the procurement, including the nature and quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity, and any requirements to be fulfilled, including any technical specifications, conformity certification, plans, drawings or instructional materials;
- (b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;
- (c) all evaluation criteria to be applied in the awarding of the contract and, except where price is the sole criterion, the relative importance of such criteria;
- (d) where the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or any other requirements related to the submission of information by electronic means, provided that there are such requirements;

- (e) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, according to which the auction will be conducted;
- (f) where there will be a public opening of tenders, the date, time and place for the opening of tenders and, if the domestic legislation of a Party stipulates that only certain persons are authorised to be present, the indication of those persons;
- (g) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and
- (h) any dates for the delivery of goods or the supply of services.

2. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account, where appropriate, such factors as the complexity of the procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the point of supply or for supply of services.

3. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, *inter alia*, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.

4. A procuring entity shall promptly reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

#### Modifications

5. If, prior to the award of a contract, a procuring entity modifies the evaluation criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating at the time of the modification, amendment or re-issuance, if such suppliers are known to the procuring entity, or otherwise publish or provide such documents in the same manner as the original information was made available; and
- (b) in adequate time to allow such suppliers to modify their initial tenders and submit amended tenders, as appropriate.

#### Article 9.12

#### Time Periods

##### General

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to obtain the tender documentation and to prepare and submit requests for participation and responsive tenders, taking into account such factors as:

- (a) the nature and complexity of the procurement;

- (b) the extent of subcontracting anticipated; and
- (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

Such time periods, including any extension thereof, shall be the same for all interested or participating suppliers.

#### Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. In case of a state of urgency, duly substantiated by the procuring entity, that renders this time period impracticable, the time period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4, 5 and 7, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the procuring entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time period for tendering established in accordance with paragraph 3 to not less than 10 days if:

(a) the procuring entity has published a notice of planned procurement as described in paragraph 5 of Article 9.6 (Notices) at least 40 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:

- (i) a description of the procurement;
- (ii) the approximate final dates for the submission of tenders or requests for participation;
- (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;
- (iv) the address from which documents relating to the procurement may be obtained; and
- (v) as much of the information that is required for the notice of intended procurement under paragraph 2 of Article 9.6 (Notices), as is available;

(b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time periods for tendering based on this paragraph;

(c) the procuring entity procures commercial goods or services; or

(d) a state of urgency, duly substantiated by the procuring entity, renders impracticable the time period for tendering established in accordance with paragraph 3.

5. A procuring entity may reduce the time period for tendering established in accordance with paragraph 3 by five days for each one of the following circumstances:

(a) the notice of intended procurement is published by electronic means;

(b) all tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and

(c) the procuring entity accepts tenders by electronic means.

6. The application of paragraph 5, in conjunction with paragraph 4, shall in no case result in a reduced time period for tendering established in accordance with paragraph 3 of less than 10 days from the date on which the notice of intended procurement is published.

7. If a procuring entity covered by Section B (Sub-Central Government Entities) or C (Other Covered Entities) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam) has selected all or a limited number of qualified suppliers, the time period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than 10 days.

#### *Article 9.13*

#### **Negotiations**

1. With regard to covered procurement, a Party may provide for its procuring entities to conduct negotiations:

(a) if the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under paragraph 2 of Article 9.6 (Notices); or

(b) if it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation.

2. A procuring entity shall:

(a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and

(b) when negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

*Article 9.14***Limited Tendering**

1. Provided a procuring entity does not use limited tendering for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 9.6 (Notices), 9.7 (Conditions for Participation), 9.8 (Qualification of Suppliers), 9.10 (Market Consultations), 9.11 (Tender Documentation), 9.12 (Time Periods), 9.13 (Negotiations) and 9.15 (Electronic Auctions) only under any of the following circumstances:

(a) if in response to a notice of intended procurement, or invitation to tender:

- (i) no tenders were submitted or no suppliers requested participation;
- (ii) no tenders were submitted that conform to the essential requirements of the tender documentation;
- (iii) no suppliers satisfied the conditions for participation; or
- (iv) the tenders submitted have been collusive,

provided that the procuring entity does not substantially modify the essential requirements set out in the tender documentation;

(b) if the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:

- (i) the requirement is for a work of art;
- (ii) the protection of patents, copyrights or other exclusive rights; or
- (iii) an absence of competition for technical reasons;

(c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement, if a change of supplier for such additional goods or services:

- (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement or conditions under original supplier warranties; and
- (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;

(d) insofar as is strictly necessary if, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time by means of an open tendering or selective tendering;

(e) for goods purchased on a commodity market or exchange;

- (f) when a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development; original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
  - (g) if additional construction services that were not included in the initial contract but were within the objectives of the original tender documentation have, due to unforeseeable circumstances, become necessary to complete the construction services described therein;
  - (h) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers; or
  - (i) when a contract is awarded to a winner of a design contest provided that:
    - (i) the contest has been organised in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
    - (ii) the contest is judged by an independent jury with a view to a design contract being awarded to a winner.
2. For each contract awarded in accordance with paragraph 1, a procuring entity shall prepare a report in writing, or maintain a record. The report or record shall include the name of the procuring entity, the value and kind of goods or services procured and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

#### *Article 9.15*

### **Electronic Auctions**

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the procuring entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction; and
- (b) any other relevant information relating to the conduct of the auction.

#### *Article 9.16*

### **Treatment of Tenders and Awarding of Contracts**

#### Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.

2. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

#### Awarding of Contracts

3. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be submitted by a supplier that satisfies the conditions for participation.

4. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:

(a) the most advantageous tender; or

(b) where price is the sole criterion, the lowest price.

5. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

6. A procuring entity shall not use options, cancel a covered procurement or modify awarded contracts in a manner that circumvents the obligations under this Chapter.

#### *Article 9.17*

### **Post-Award Information**

#### Information Provided to Suppliers

1. A procuring entity shall promptly inform suppliers that have submitted a tender or application for participation of the procuring entity's contract award decisions and, on the request of a supplier, shall do so in writing.

2. Subject to paragraphs 2 and 3 of Article 9.18 (Disclosure of Information), a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the procuring entity did not select its tender and, for suppliers meeting the conditions for participation whose tenders pass technical specifications, the relative advantages of the successful supplier's tender.

#### Publication of Award Information

3. Not later than 30 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Section H (Publication of Procurement Information) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam). Where the procuring entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:

(a) a description of the goods or services procured;

- (b) the name and address of the procuring entity;
- (c) the name and address of the successful supplier;
- (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
- (e) the date of award; and
- (f) the type of procurement method used and, in cases where limited tendering was used in accordance with Article 9.14 (Limited Tendering), a brief description of the circumstances justifying the use of limited tendering.

#### Maintenance of Records

4. Each procuring entity shall maintain:

- (a) the documentation, records and reports relating to tendering procedures and contract awards for covered procurement, including the records and reports required under Article 9.14 (Limited Tendering), for a period of at least three years from the date it awards a contract; and
- (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

#### Statistics

5. The Parties shall endeavour to communicate the available statistical data relevant to the procurement covered by this Chapter.

### *Article 9.18*

#### **Disclosure of Information**

##### Provision of Information

1. On request of the other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including, where applicable, information on the characteristics and relative advantages of the successful tender. The other Party shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

##### Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any supplier information that could prejudice legitimate commercial interests of another supplier or that might prejudice fair competition between suppliers.

3. Nothing in this Chapter shall be construed as requiring a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;

- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

*Article 9.19*

**Domestic Review**

1. Each Party shall maintain, establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to review, in a non-discriminatory, timely, transparent and effective manner, a challenge by a supplier of:

- (a) a breach of this Chapter; or
- (b) a failure of a procuring entity to comply with a Party's measures implementing this Chapter, where the supplier does not have a right to challenge directly a breach of this Chapter under the domestic law of a Party,

arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. In case of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage, where appropriate, the procuring entity and the supplier to seek resolution of the complaint through consultations. The procuring entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or to its right to seek corrective measures under the administrative or judicial review procedures. Each Party or its procuring entities shall make information on such complaint mechanisms generally available.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Where a body other than an authority referred to in paragraph 1 initially reviews a challenge, the Party shall ensure that the supplier may lodge an appeal against the initial decision with an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

5. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants in the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;

- (c) the participants shall have the right to be represented and accompanied;
- (d) the participants shall have access to all proceedings; and
- (e) the review body shall make its decisions on a supplier's challenge in a timely manner, in writing, and shall include an explanation of the grounds for each decision.

6. Each Party shall adopt or maintain procedures that provide for:

- (a) rapid interim measures, pending the resolution of a challenge, to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
- (b) corrective action or compensation for the loss or damages suffered, when a review body has determined that there has been a breach or a failure as referred to in paragraph 1. The compensation for the damages suffered may be limited to either the costs reasonably incurred in the preparation of the tender or in bringing the challenge, or both.

#### *Article 9.20*

#### **Modification and Rectification to Coverage**

1. A Party shall notify the other Party in writing of any proposed modification or rectification to its coverage (hereinafter referred to as "modification").

2. For any proposed withdrawal of an entity from its coverage in exercise of its rights on the grounds that government control or influence over it has been effectively eliminated, the Party proposing the modification (hereinafter referred to as "modifying Party") shall include in the notification evidence that such government control or influence has been effectively eliminated.

3. Government control or influence over an entity is deemed to be effectively eliminated when the modifying Party, including for the Union its central government entities and its sub-central government entities, and for Viet Nam its central government entities and sub-central government entities:

- (a) does not own directly or indirectly more than 50 per cent of the entity's subscribed capital or the votes attached to the shares issued by the entity; and
- (b) cannot appoint directly or indirectly more than half of the members of the entity's board of directors or an equivalent body.

4. For any other proposed modification, the modifying Party shall include in the notification information regarding the likely consequences of the change for the mutually agreed coverage provided in this Agreement. Where the modifying Party proposes to make rectifications of a purely formal nature and minor modifications to its coverage not affecting covered procurement, modifications of this kind shall be notified at least every two years.

Proposed modifications of coverage are deemed to constitute rectifications of a purely formal nature and minor modifications to the Party's coverage in the following cases:

- (a) changes in the name of a procuring entity;
- (b) merger of one or more procuring entities listed in Annex 9-A (Coverage of Government Procurement for the Union) or 9-B (Coverage of Government Procurement for Viet Nam); or
- (c) the separation of a procuring entity listed in Annex 9-A (Coverage of Government Procurement for the Union) or 9-B (Coverage of Government Procurement for Viet Nam) into two or more entities that are all added to the procuring entities listed in the same Section of the Annex.

5. The modifying Party may include in its notice an offer of compensatory adjustments for the change to its coverage, if necessary to maintain a level of coverage comparable to that existing prior to the modification. The modifying Party shall not be required to provide compensatory adjustments to the other Party when a proposed modification concerns:

- (a) a procuring entity over which it has effectively eliminated its control or influence in respect of covered procurement by that entity; or
- (b) rectifications of a purely formal nature and minor modifications to Annex 9-A (Coverage of Government Procurement for the Union) or 9-B (Coverage of Government Procurement for Viet Nam).

Notwithstanding subparagraph (a), should the withdrawal by a modifying Party of a significant number of procuring entities from its coverage on the ground that these entities are no longer under government control or influence in accordance with the criteria set out in paragraph 3 result in a significant imbalance of coverages agreed between the Parties, the modifying Party shall accept to enter into consultations with the other Party to discuss, without prejudice, the modalities for redressing such imbalance.

6. The other Party shall notify the modifying Party of any objection to the proposed modification within 45 days of the notification.

7. If the other Party notifies an objection, both Parties shall seek to resolve the issue through consultations. During the consultations, the objecting Party may request further information with a view to clarifying the proposed modification, including the nature of any government control or influence.

8. If the consultations under paragraph 7 do not resolve the issue, the Parties may use the dispute settlement mechanism provided for in Chapter 15 (Dispute Settlement).

9. A proposed modification shall become effective only if:

- (a) the other Party has not submitted to the modifying Party a written objection to the proposed modification within 45 days from the date of the notification of the proposed modifications;

- (b) the Parties have reached an agreement; or
  
- (c) an arbitration panel has issued a final report in accordance with Article 15.11 (Final Report) concluding that the Parties shall give effect to the proposed modification.

*Article 9.21*

**Cooperation**

1. The Parties recognise their shared interest in cooperating in the promotion of international liberalisation of government procurement markets with a view to achieving enhanced understanding of their respective government procurement systems and to improving access to their respective markets.
  
2. Without prejudice to paragraph 4 of Article 9.6 (Notices), the Parties shall endeavour to cooperate in matters such as:
  - (a) exchanging experiences and information, such as regulatory frameworks and best practices;
  
  - (b) developing and expanding the use of electronic means in government procurement systems;
  
  - (c) building capability of government officials in best government procurement practices; and
  
  - (d) institutional strengthening for the fulfilment of the provisions of this Chapter.

*Article 9.22*

**Future Negotiations**

Procurement by Electronic Means

1. The Parties shall review the provisions of Article 9.15 (Electronic Auctions) once Viet Nam's electronic procurement system has been fully developed to take into account possible technological changes and in particular to consider other aspects such as the mathematical formula used for the automatic evaluation method and the possible communication of the results of any initial evaluation to the participants in the auction.
  
2. The Parties shall conduct further negotiations on the duration of the period for the storage of data relating to procurement by electronic means once Viet Nam's electronic procurement system is operational.

Market Access

3. The Parties shall conduct further negotiations on the coverage of additional sub-central government entities no later than 15 years after the date of the entry into force of this Agreement.

*Article 9.23***Committee on Investment, Services, Electronic Commerce and Government Procurement**

The Committee on Investment, Services, Electronic Commerce and Government Procurement established pursuant to Article 17.2 (Specialised Committees) shall be responsible for the implementation of this Chapter. It may, in particular:

- (a) discuss the exchange of statistical data in accordance with paragraph 5 of Article 9.17 (Post-Award Information);
- (b) review pending notifications of modifications to coverage and approve the revised list of procuring entities in Sections A (Central Government Entities) to C (Other Covered Entities) of Annexes 9-A (Coverage of Government Procurement for the Union) and 9-B (Coverage of Government Procurement for Viet Nam);
- (c) approve the compensatory adjustments resulting from modifications affecting coverage;
- (d) consider issues regarding government procurement that are referred to it by a Party; and
- (e) discuss any other matters related to the operation of this Chapter.

*CHAPTER 10***Competition policy***Section A***Anti-competitive conduct***Article 10.1***Principles**

The Parties recognise the importance of undistorted competition in their trade and investment relations. The Parties acknowledge that anti-competitive conduct has the potential to distort the proper functioning of markets and undermine the benefits of trade liberalisation.

*Article 10.2***Legislative Framework**

1. Each Party shall adopt or maintain comprehensive legislation on competition that proscribes anti-competitive conduct, with the objective of promoting economic efficiency and consumer welfare, and shall take appropriate action with respect to such conduct.
2. The competition law of the Parties shall, in their respective territories, effectively address:
  - (a) agreements between enterprises, decisions by associations of enterprises and concerted practices which have as their object or effect the prevention, restriction or distortion of competition;
  - (b) abuses by one or more enterprises of a dominant position, and concentrations between enterprises which would significantly impede effective competition.

*Article 10.3***Implementation**

1. Each Party shall maintain its autonomy in developing and enforcing its competition law.
2. Each Party shall maintain authorities which are responsible for the full application and the effective enforcement of its competition law and ensure that they are appropriately equipped and have the powers necessary for fulfilling their responsibilities.
3. All enterprises, private or public, shall be subject to the competition law referred to in Article 10.2 (Legislative Framework).
4. Each Party shall apply its competition law in a transparent and non-discriminatory manner, including to private and public enterprises, respecting the principles of procedural fairness and rights of defence of the enterprises concerned.
5. The application of competition law shall not obstruct the performance, in law or in fact, of the particular tasks of public interest assigned to the enterprises in question. Exemptions from the competition law of a Party shall be limited to tasks of public interest, proportionate to the desired public policy objective and transparent.

**Section B****Subsidies***Article 10.4***Principles**

1. The Parties agree that a Party may grant subsidies when they are necessary to achieve a public policy objective. The Parties acknowledge that certain subsidies have the potential to distort the proper functioning of markets and undermine the benefits of trade liberalisation. In principle, a Party should not grant subsidies to enterprises providing goods or services if they negatively affect, or are likely to negatively affect, competition and trade.
2. An illustrative list of public policy objectives for which a Party may grant subsidies, subject to the conditions set out in this Section, includes the following:
  - (a) making good the damage caused by natural disasters or exceptional occurrences;
  - (b) promoting the economic development of areas where the standard of living is abnormally low or where there is serious underemployment;
  - (c) remedying a serious disturbance in the economy of one of the Parties;
  - (d) facilitating the development of certain economic activities or of certain economic areas, including but not limited to, subsidies for clearly defined research, development and innovation purposes, subsidies for training or for the creation of employment, subsidies for environmental purposes, subsidies in favour of small and medium-sized enterprises as defined in the Parties' respective legislations; and
  - (e) promoting culture and heritage conservation.

3. Each Party shall ensure that enterprises use the specific subsidies provided by a Party only for the policy objective for which the specific subsidies have been granted. <sup>(42)</sup>

#### *Article 10.5*

##### **Definition and Scope**

1. For the purposes of this Section, a "subsidy" means a measure which fulfils the conditions set out in Article 1.1 of the SCM Agreement irrespective of whether it is granted to an enterprise manufacturing goods or supplying services <sup>(43)</sup>.

2. This Section applies only to subsidies which are specific in accordance with Article 2 of the SCM Agreement. Subsidies to individual consumers or general measures, including subsidies or measures intended to achieve social policy objectives, are not considered as specific.

3. This Section applies to specific subsidies to all enterprises, including public and private enterprises.

4. The application of this Section shall not obstruct the performance, in law or in fact, of the particular tasks of public interest, including public service obligations, assigned to the enterprises concerned. Exemptions should be limited to tasks of public interest, proportionate to the public policy objectives assigned to those enterprises, and transparent.

5. This Section does not apply to non-economic activities.

6. Paragraph 1 of Article 10.9 (Specific Subsidies Subject to Conditions) does not apply to fisheries subsidies and subsidies related to trade in goods covered by Annex 1 to the Agreement on Agriculture.

7. This Section applies only to specific subsidies of which the amount per beneficiary over a period of three years is above 300 000 special drawing rights <sup>(44)</sup>.

8. With regard to subsidies to enterprises supplying services, Article 10.7 (Transparency) and Article 10.9 (Specific Subsidies Subject to Conditions) apply only to the following services sectors: telecommunications, banking, insurance, transport including maritime transport, energy, computer services, architecture and engineering, and construction and environmental services, subject to the reservations provided for in Chapter 8 (Liberalisation of Investment, Trade in Services and Electronic Commerce).

9. This Section does not apply to sectors or sub-sectors which the Parties have not listed in Chapter 8 (Liberalisation of Investment, Trade in Services and Electronic Commerce).

10. Article 10.9 (Specific Subsidies Subject to Conditions) does not apply to subsidies formally agreed or granted before or within five years after the entry into force of this Agreement.

#### *Article 10.6*

##### **Relationship with the WTO**

This Section applies without prejudice to the rights and obligations of each Party under Article VI of GATT 1994, the SCM Agreement and the Agreement on Agriculture.

<sup>(42)</sup> For greater certainty, when a Party has set up the relevant legislative framework and administrative procedures to this effect, the obligation is considered to be fulfilled.

<sup>(43)</sup> This Article does not prejudice the Parties' positions and the possible outcome of future discussions in the WTO on subsidies to services. Depending on the progress of those discussions at the WTO level, the Parties may adopt a decision by a relevant committee to update this Agreement in this respect.

<sup>(44)</sup> For greater certainty, the notification obligation does not require the notifying Party to provide the name of the beneficiary of the subsidy.

*Article 10.7***Transparency**

1. Each Party shall ensure transparency in the area of specific subsidies. To that end, each Party shall notify the other Party every four years of the legal basis, form, amount or budget, and if possible, the recipient of a specific subsidy <sup>(45)</sup>.
  
2. The notification obligation referred to in paragraph 1 is deemed to have been fulfilled if the Party makes the relevant information available on a publicly accessible website, as from 31 December of the calendar year which follows the year when the subsidy was granted. The first notification shall be made available no later than four years after the date of entry into force of this Agreement.

*Article 10.8***Consultations**

1. If a Party considers that a specific subsidy granted by the other Party, which is not covered by Article 10.9 (Specific Subsidies Subject to Conditions), negatively affects or may negatively affect its trade or investment interests, that Party may express its concern in written form to the other Party and request consultations on the matter. The requested Party shall accord sympathetic consideration to this request. The consultations should, in particular, aim at identifying whether:
  - (a) the specific subsidy was only granted to achieve a public policy objective;
  
  - (b) the amount of the subsidy in question is limited to the minimum needed to achieve this objective;
  
  - (c) the subsidy creates an incentive; and
  
  - (d) the negative effect on trade and investment of the requesting Party is limited.
  
2. In order to facilitate the consultations, the requested Party shall provide information on the specific subsidy in question within 90 days of the date of receipt of the request. If the requesting Party, after receiving information on the subsidy in question, considers that the subsidy concerned by the consultations negatively affects or may negatively affect in a disproportionate manner its trade or investment interests, the requested Party shall use its best endeavours to eliminate or minimise these negative effects caused by the subsidy in question.

*Article 10.9***Specific Subsidies Subject to Conditions**

1. The Parties shall apply conditions to the following specific subsidies:
  - (a) a legal arrangement whereby a government or any public body is responsible for covering debts or liabilities of certain enterprises is allowed, provided that the coverage of the debts and liabilities is limited as regards the amount of those debts and liabilities or the duration of that responsibility;

---

<sup>(45)</sup> For greater certainty, the notification obligation does not require the notifying Party to provide the name of the beneficiary of the subsidy.

(b) support to insolvent or ailing enterprises in various forms, such as loans and guarantees, cash grants, capital injections, provision of assets below market prices, and tax exemptions, with a duration of more than one year is allowed provided that a credible restructuring plan has been prepared, which is based on realistic assumptions with a view to ensuring the return of the enterprise to long-term viability within a reasonable time and with the enterprise itself contributing to the costs of restructuring <sup>(46)</sup>.

2. Paragraph 1 does not apply to specific subsidies for which the Party granting the subsidy has demonstrated, upon a written request of the other Party, that the subsidy in question does neither affect nor is likely to affect trade or investment of the other Party.

3. Paragraph 1 does not apply to specific subsidies that are granted to remedy a serious disturbance in the economy of a Party. A disturbance in the economy of a Party shall be considered serious if it is exceptional, temporary and significant and affects the Member States or the whole economy of a Party rather than a specific region or economic sector.

#### *Article 10.10*

##### **Review**

The Parties shall review this Section no later than five years after the entry into force of this Agreement and at regular intervals thereafter. The Parties shall consult each other on the need to modify this Section in light of the experience gained and the development of any corresponding rules in the WTO. The Parties shall, in particular, review the inclusion of additional services sectors under the scope of this Section in Article 10.5 (Definition and Scope).

#### Section C

##### **Definitions and common principles**

#### *Article 10.11*

##### **Definitions**

For the purposes of this Chapter:

- (a) "public policy objective" means the general goal to deliver an outcome in the overall public benefit; and
- (b) "tasks of public interest" means specific activities which deliver outcomes in the overall public benefit that would not be supplied or would be supplied under different conditions in terms of accessibility, quality, safety, affordability or equal treatment by the market without public intervention.

#### *Article 10.12*

##### **Confidentiality**

1. When exchanging information under this Chapter, the Parties shall take into account the limitations imposed by their respective legislation concerning professional and business secrecy and shall ensure the protection of business secrets and other confidential information.

2. Any information communicated under this Agreement shall be treated by the receiving Party as confidential unless the other Party has authorised the disclosure or made that information available to the general public.

---

<sup>(46)</sup> This does not prevent the Parties from providing temporary liquidity support in the form of loan guarantees or loans limited to the amount needed to keep the enterprise in business for the time necessary to work out a restructuring or liquidation plan.

*Article 10.13***Dispute Settlement**

No Party shall have recourse to dispute settlement under this Agreement for any matter arising under Section A (Anti-Competitive Conduct) of this Chapter and Article 10.8 (Consultations).

*Article 10.14***Cooperation**

In order to fulfil the objectives of this Chapter and to enhance effective competition enforcement, the Parties acknowledge that it is in their common interest to strengthen cooperation with regard to competition policy development, including subsidy control, subject to the availability of funding under the Parties' cooperation instruments and programmes.

## CHAPTER 11

***State-owned enterprises, enterprises granted special rights or privileges, and designated monopolies****Article 11.1***Definitions**

For the purposes of this Chapter:

- (a) "commercial activities" means activities the end result of which is the production of a good or supply of a service, which will be sold in the relevant market in quantities and at prices determined by the enterprise, and are undertaken with an orientation towards profit-making;<sup>(47)</sup>
- (b) "commercial considerations" means price, quality, availability, marketability, transportation and other terms and conditions of purchase or sale, or other factors that would normally be taken into account in the commercial decisions of an enterprise operating according to market economy principles in the relevant business or industry;
- (c) "designate" means to establish or authorise a monopoly, or to expand the scope of a monopoly to cover an additional good or service;
- (d) "designated monopoly" means an entity, including a group of entities or a government agency, and any subsidiary thereof, that in a relevant market in the territory of a Party is designated as the sole supplier or purchaser of a good or service, but does not include an entity that has been granted an exclusive intellectual property right solely by reason of such grant;
- (e) "enterprise granted special rights or privileges" means any enterprise, including any subsidiary, public or private, that has been granted by a Party, in law or in fact, special rights or privileges;
- (f) "special rights or privileges" means rights or privileges granted by a Party to a limited number of enterprises, or any subsidiaries thereof, within a given geographical area or product market, the effect of which is to substantially limit the ability of any other enterprise to carry out its activity in the same geographical area or product market in like circumstances; the granting of a license or a permit to a limited number of enterprises in allocating a scarce resource through objective, proportional and non-discriminatory criteria is not in and of itself a special right or privilege; and

<sup>(47)</sup> For greater certainty, activities undertaken by an enterprise which operates on a non-profit basis or on a cost-recovery basis are not activities undertaken with an orientation toward profit-making.

- (g) "state-owned enterprise" means an enterprise, including any subsidiary, in which a Party, directly or indirectly:
- (i) owns more than 50 per cent of the enterprise's subscribed capital or controls more than 50 per cent of the votes attached to the shares issued by the enterprise;
  - (ii) can appoint more than half of the members of the enterprise's board of directors or an equivalent body; or
  - (iii) can exercise control over the strategic decisions of the enterprise.

If an enterprise combines commercial and non-commercial activities<sup>(48)</sup>, only the commercial activities of that enterprise are covered by this Chapter.
3. This Chapter does not apply to state-owned enterprises, enterprises granted special rights or privileges, and designated monopolies, for which a Party has taken measures on a temporary basis in response to a national or global economic emergency.
4. This Chapter does not apply to state-owned enterprises, enterprises granted special rights or privileges, and designated monopolies if in any one of the three previous consecutive years the annual revenue derived from the commercial activities of that enterprise or that monopoly was less than 200 million special drawing rights.<sup>(49)</sup> This threshold applies to state-owned enterprises, enterprises granted special rights or privileges, and designated monopolies, at sub-central levels of government, as from five years after the date of entry into force of this Agreement.
5. This Chapter does not apply to covered procurement by a Party or its procuring entities within the meaning of Article 9.2 (Scope and Coverage).
6. This Chapter does not apply to state-owned enterprises, enterprises granted special rights or privileges, and designated monopolies, owned or controlled by a governmental authority of a Party in charge of national defence, public order or public security, except if these are engaged exclusively in commercial activities unrelated to national defence, public order or public security.
7. This Chapter does not apply to any service supplied by state-owned enterprises, enterprises granted special rights or privileges, and designated monopolies, in the exercise of governmental authority.<sup>(50)</sup>
8. This Chapter does not apply to measures or activities listed in Annex 11 (Specific Rules for Viet Nam on State-Owned Enterprises, Enterprises Granted Special Rights or Privileges, and Designated Monopolies).

The request shall indicate the enterprise or monopoly, the products or services and markets concerned, and include indications that the enterprise or monopoly is engaging in practices that hinder trade or investment between the Parties.

2. The information referred to in paragraph 1 shall include:

- (d) a description of which government departments or public bodies regulate or monitor the enterprise or monopoly, a description of the reporting lines <sup>(53)</sup>, and the rights and practices of the government department or public bodies in the appointment, dismissal or remuneration of managers;
- (e) annual revenue or total assets, or both;
- (f) exemptions, immunities and any other measures, including more favourable treatment, applicable in the territory of the requested Party to any state-owned enterprise, enterprise granted special rights or privileges, or designated monopoly.
3. A Party may request the other Party to provide additional information regarding the calculations of the revenue threshold referred to in paragraph 4 of Article 11.2 (Scope of Application).
4. Paragraphs 1 to 3 shall not require a Party to disclose confidential information which would be inconsistent with its laws and regulations, impede law enforcement or otherwise be contrary to the public interest or prejudice the legitimate commercial interests of particular enterprises.

### Protection of Technological Measures

1. Each Party shall provide adequate legal protection against the circumvention of any effective technological measures, which are used by the right holder of any copyright or related right which the person concerned carries out in the knowledge, or with reasonable grounds to know, that he or she is pursuing that objective.

2. Each Party shall provide adequate legal protection against the manufacture, import, distribution, sale, rental, offer to public for sale or rental, or possession for commercial purposes of devices, products or components or the provision of services, which:

- (b) have only a limited commercially significant purpose or use other than to circumvent any effective technological measures; or
- (c) are primarily designed, produced, adapted or performed for the purpose of enabling or facilitating the circumvention of any effective technological measures.

3. In providing adequate legal protection pursuant to paragraphs 1 and 2, a Party may adopt or maintain appropriate limitations or exceptions to measures implementing those paragraphs. The obligations under paragraphs 1 and 2 are without prejudice to the rights, limitations, exceptions, or defences to infringements of copyright or related rights under each Party's domestic law.

4. For the purposes of this Article, the term "technological measures" means any technology, device or component that, in the normal course of its operation, is designed to prevent or restrict acts, in respect of works or other subject-matter, which are not authorised by the right holder of any copyright or related right as provided for by domestic legislation. Technological measures shall be deemed "effective" where the use of a protected work or other subject-matter is controlled by the right holders through application of an access control or protection process, such as encryption, scrambling or other transformation of the work or other subject-matter or a copy control mechanism, which achieves the objective of protection.

#### Article 12.13

1. Each Party shall provide adequate legal protection against any person knowingly performing, without authority, any of the following acts:

- (a) the removal or alteration of any electronic rights management information; or

if this person knows, or has reasonable grounds to know, that by so doing this person is inducing, enabling, facilitating or concealing an infringement of any copyright or any related right as provided for by domestic legislation.

2. For the purposes of this Article, the term "rights management information" means any information provided by right holders which identifies the work or other subject-matter referred to in this Sub-Section, the author or any other right holder, information about the terms and conditions of use of the work or other subject-matter, or any numbers or codes that represent such information.

3. Paragraph 2 applies when any of the items of information referred to in that paragraph is associated with a copy of, or appears in connection with the communication to the public of, a work or other subject-matter referred to in this Sub-Section.

#### *Article 12.14*

### **Exceptions and Limitations**

1. Each Party may provide for exceptions and limitations to the rights set out in Articles 12.6 (Authors) to 12.10 (Broadcasting and Communication to the Public) only in certain special cases which do not conflict with a normal exploitation of the subject-matter and do not unreasonably prejudice the legitimate interests of the right holders in accordance with the international treaties to which they are party.

2. Each Party shall provide that acts of reproduction referred to in Articles 12.6 (Authors) to 12.10 (Broadcasting and Communication to the Public), which are transient or incidental, which are an integral and essential part of a technological process and the sole purpose of which is to enable:

(a) a transmission in a network between third parties by an intermediary; or

(b) a lawful use,

of a work or other subject-matter to be made, and which have no independent economic significance, shall be exempted from the reproduction right provided for in Articles 12.6 (Authors) to 12.10 (Broadcasting and Communication to the Public).

2. The right referred to in paragraph 1 applies to all acts of resale involving as sellers, buyers or intermediaries art market professionals, such as salesrooms, art galleries and, in general, any professional dealers in works of art.

3. A Party may provide that the right referred to in paragraph 1 does not apply to acts of resale where the seller has acquired the work directly from the author less than three years before that resale and where the resale price does not exceed a certain minimum amount.

4. The right referred to in paragraph 1 may be claimed in a Party only if the domestic legislation of that Party to which the author belongs so permits, and to the extent permitted by the Party where this right is claimed. The procedure for collection and the amounts shall be determined in domestic legislation.

## Article 12.16

**Cooperation on Collective Management of Rights**

The Parties shall endeavour to promote dialogue and cooperation between their respective collective management organisations for the purposes of promoting the availability of works and other protected subject-matter in the territories of the Parties and the transfer of royalties for the use of such works or other protected subject-matter.

3. Each Party shall simplify and develop its trademark registration procedures using, *inter alia*, the *Trademark Law Treaty*, adopted at Geneva on 27 October 1994, and the *Singapore Treaty on the Law of Trademarks*, done at Singapore on 27 March 2006, as reference points.

## Article 12.18

**Rights Conferred by a Trademark**

A registered trademark shall confer on the proprietor exclusive rights therein. The proprietor shall be entitled to prevent all third parties not having his consent from using in the course of trade:

- (a) any sign which is identical with the trademark in relation to goods or services which are identical with those for which the trademark is registered; <sup>(55)</sup> and
- (b) any sign which is identical with or similar to the trademark in relation to goods or services which are identical with or similar to those for which the trademark is registered, where such use would result in a likelihood of confusion on the part of the public.

## Article 12.19

**Registration Procedure**

1. Each Party shall provide for a system for the registration of trademarks in which each final refusal to register a trademark by the relevant trademark administration shall be communicated in writing and be duly reasoned.
2. Each Party shall provide for the possibility to oppose trademark applications and an opportunity for the trademark applicant to respond to such opposition.
3. Each Party shall provide a publicly available electronic database of published trademark applications and trademark registrations.

<sup>(54)</sup> For greater certainty, a Party shall use the updated versions of the Nice Classification to the extent that the updated version has been published by WIPO and, in the case of Viet Nam, the official translation has been published.

<sup>(55)</sup> For greater certainty, this is without prejudice to Article 12.21 (Exceptions to the Rights Conferred by a Trademark).

*Article 12.20***Well-Known Trademarks**

For the purposes of giving effect to protection of well-known trademarks, as referred to in Article 6bis of the Paris Convention and paragraphs 2 and 3 of Article 16 of the TRIPS Agreement, the Parties shall give consideration to the *Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks*, adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of the WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO on 20 to 29 September 1999.

*Article 12.21***Exceptions to the Rights Conferred by a Trademark**

Each Party:

- (a) shall provide for the fair use of descriptive terms <sup>(56)</sup> as a limited exception to the rights conferred by trademarks; and
- (b) may provide for other limited exceptions,

provided that these exceptions take account of the legitimate interests of the owners of the trademarks and of third parties.

*Article 12.22***Revocation of a Registered Trademark <sup>(57)</sup>**

1. Each Party shall provide that a registered trademark shall be liable to revocation if, within a continuous period of five years prior to a request for revocation, it has not been put to genuine <sup>(58)</sup> use by its owner or the owner's licensee in the relevant territory in connection with the goods or services in respect of which it is registered, without justifiable reasons, except where the use is commenced or resumed at least three months before the request for revocation. A Party may provide that this exception be disregarded where preparations for the commencement or resumption occur only after the proprietor becomes aware that the request for revocation may be filed.
2. A Party may provide that a trademark can be liable to revocation if, after the date on which it was registered, it has become, as a result of acts or inactivity of the proprietor, the common name in the trade for a product or service in respect of which it is registered.
3. Any use of a registered trademark by the proprietor of the trademark or with his consent in respect of the goods or services for which it is registered that is liable to mislead the public, particularly as to the nature, quality or geographical origin of those goods or services shall make the trademark liable to revocation or, alternatively, be prohibited by relevant domestic law.

## Sub-section 3

**Geographical indications***Article 12.23***Scope of Application**

1. This Sub-Section applies to the recognition and protection of geographical indications for wines, spirits, agricultural products and foodstuffs which are originating in the territories of the Parties.

<sup>(56)</sup> The fair use of descriptive terms includes the use of a sign to indicate the geographic origin of the goods or services, where such use is in accordance with honest practices in industrial or commercial matters.

<sup>(57)</sup> For Viet Nam "revocation" is equivalent to "termination".

<sup>(58)</sup> Genuine use implies real use for the purpose of trading in the goods or services in question so as to generate goodwill. In general, this implies actual sales and there must have been some sales of the goods or providing of the services during the relevant period of time. Use in advertising may amount to genuine use. However, mere preparatory steps are not to be regarded as genuine use of a mark. Genuine use is opposed to token or artificial use designed solely to maintain the trade mark on the register.

2. Geographical indications of a Party, which are to be protected by the other Party, shall only be subject to this Sub-Section if they are protected as geographical indications in accordance with the system referred to in Article 12.24 (System of Registration and Protection of Geographical Indications) in the territory of the Party of origin.

#### Article 12.24

### System of Registration and Protection of Geographical Indications

1. Each Party shall maintain a system for the registration and protection of geographical indications which shall contain at least the following elements:

- (a) a register listing geographical indications protected in the territory of that Party;
- (b) an administrative process verifying that geographical indications to be entered, or maintained, on the register referred to in subparagraph (a) identify a good as originating in a territory, region or locality of a Party, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin;
- (c) an opposition procedure that allows the legitimate interests of any natural or legal person to be taken into account; and
- (d) procedures for rectification and removal or termination of the effects of the entries on the register referred to in subparagraph (a) that take into account the legitimate interests of third parties and the right holders of the registered geographical indications in question <sup>(59)</sup>.

2. Each Party may provide in its domestic legislation more extensive protection than is required by this Sub-Section, provided that such protection does not contravene the protection provided under this Agreement.

#### Article 12.25

### Established Geographical Indications

1. Having completed an opposition procedure and an examination of the geographical indications of the Union listed in Part A of Annex 12-A (List of Geographical Indications), Viet Nam recognises that those indications are geographical indications within the meaning of paragraph 1 of Article 22 of the TRIPS Agreement and that they have been registered by the Union in accordance with the system referred to in Article 12.24 (System of Registration and Protection of Geographical Indications). Viet Nam shall protect those geographical indications according to the level of protection provided for in this Agreement.

2. Having completed an opposition procedure and an examination of the geographical indications of Viet Nam listed in Part B of Annex 12-A (List of Geographical Indications), the Union recognises that those indications are geographical indications within the meaning of paragraph 1 of Article 22 of the TRIPS Agreement and that they have been registered by Viet Nam in accordance with the system referred to in Article 12.24 (System of Registration and Protection of Geographical Indications). The Union shall protect those geographical indications according to the level of protection provided for in this Agreement.

<sup>(59)</sup> Without prejudice to its domestic legislation on the system of registration and protection of geographical indications, each Party shall provide for legal means for the invalidation of the registration of geographical indications.

## Article 12.26

**Amendment of the List of Geographical Indications**

1. The Parties may amend the list of geographical indications in Annex 12-A (List of Geographical Indications) in accordance with the procedure set out in subparagraph 3(a) of Article 12.63 (Working Group on Intellectual Property Rights, including Geographical Indications) and paragraph 1 of Article 17.5 (Amendments) by, *inter alia*:

- (a) removing geographical indications which have ceased to be protected in the country of origin; or
- (b) adding geographical indications, after having completed the opposition procedure and after having examined the geographical indications as referred to in Article 12.25 (Established Geographical Indications) to the satisfaction of both Parties.

2. A geographical indication for wines, spirits, agricultural products or foodstuffs shall not, in principle, be added to Annex 12-A (List of Geographical Indications), if it is a name that on the date of signing of this Agreement is listed in the relevant register of a Party with a status of "Registered".

## Article 12.27

**Protection of Geographical Indications**

1. Each Party shall provide the legal means for interested parties to prevent:

(a) the use of a geographical indication of the other Party listed in Annex 12-A (List of Geographical Indications) for any product that falls within the product class, as defined in Annex 12-B (Product Classes) and specified in Annex 12-A (List of Geographical Indications) for that geographical indication, and that either:

(i) does not originate in the country of origin specified in Annex 12-A (List of Geographical Indications) for that geographical indication; or

(ii) originates in the country of origin specified in Annex 12-A (List of Geographical Indications) for that geographical indication but was not produced or manufactured in accordance with the laws and regulations of the other Party that would apply if the product was for consumption in the other Party;

(b) the use of any means in the designation or presentation of a good that indicates or suggests that the good in question originates in a geographical area other than the true place of origin in a manner which misleads the public as to the geographical origin or nature of the good; and

(c) any other use which constitutes an act of unfair competition within the meaning of Article 10bis of the Paris Convention.

2. The protection referred to in subparagraph 1(a) shall be provided even where the true origin of the product is indicated or the geographical indication is used in translation or accompanied by expressions such as "kind", "type", "style", "imitation" or the like.

3. Without prejudice to Article 23 of the TRIPS Agreement, the Parties shall mutually decide the practical conditions of use under which homonymous geographical indications will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled. A homonymous name which misleads consumers into believing that a product comes from another territory shall not be registered even if the name is accurate as far as the actual territory, region or place of origin of the product in question is concerned.

4. When a Party, in the context of negotiations with a third country, proposes to protect a geographical indication of the third country which is homonymous with a geographical indication of the other Party protected under this Sub-Section, it shall inform the other Party thereof and give it an opportunity to comment before the third country's geographical indication becomes protected.

5. Nothing in this Sub-Section shall oblige a Party to protect a geographical indication of the other Party which is not, or ceases to be, protected in its country of origin. Each Party shall notify the other Party if a geographical indication ceases to be protected in the country of origin. Such notification shall take place in accordance with paragraph 3 of Article 12.63 (Working Group on Intellectual Property Rights, including Geographical Indications).

6. A Party shall not be required to protect as a geographical indication a name that conflicts with the name of a plant variety or an animal breed and as a result is likely to mislead the consumer as to the true origin of the product.

#### *Article 12.28*

##### **Exceptions**

1. Notwithstanding Article 12.27 (Protection of Geographical Indications), the protection of the geographical indications "Asiago", "Fontina" and "Gorgonzola" listed in Part A of Annex 12-A (List of Geographical Indications) shall not prevent the use of any of these indications in the territory of Viet Nam by any persons, including their successors, who made actual commercial use in good faith of those indications with regard to products in the class of "cheeses" prior to 1 January 2017.

2. Notwithstanding Article 12.27 (Protection of Geographical Indications), the protection of the geographical indication "Feta" listed in Part A of Annex 12-A (List of Geographical Indications) shall not prevent the use of this indication in the territory of Viet Nam by any persons, including their successors, who made actual commercial use in good faith of this indication with regard to products in the class of "cheeses" made from sheep's milk or made from sheep and goat's milk, prior to 1 January 2017.

3. Notwithstanding Article 12.27 (Protection of Geographical Indications), during a transitional period of 10 years from the date of entry into force of this Agreement the protection of the geographical indication "Champagne", listed in Part A of Annex 12-A (List of Geographical Indications), shall not prevent the use of this indication, or its translation, transliteration or transcription in the territory of Viet Nam by any persons including their successors, who made actual commercial use in good faith of this indication with regard to products in the class of "wines".

4. A Party may provide that any request made under this Sub-Section in connection with the use or registration of a trademark must be presented within five years after the adverse use of the protected indication has become generally known in that Party or after the date of registration of the trademark in that Party, provided that the trademark has been published by that date, if such date is earlier than the date on which the adverse use became generally known in that Party, provided that the geographical indication is not used or registered in bad faith.

5. This Sub-Section shall not prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead the public.

#### *Article 12.29*

##### **Right of Use of Geographical Indications**

*Article 12.30***Relationship to Trademarks**

1. When a trademark has been applied for or registered in good faith, or when rights to a trademark have been acquired through use in good faith, in a Party before the applicable date set out in paragraph 2, measures adopted to implement this Sub-Section in that Party shall not prejudice eligibility for or the validity of the trademark, or the right to use the trademark, on the basis that the trademark is identical with, or similar to, a geographical indication.
2. For the purposes of paragraph 1, the applicable date is:
  - (a) the date of entry into force of this Agreement with regard to the geographical indications referred to in Article 12.25 (Established Geographical Indications); or
  - (b) the date on which the competent authority of a Party receives from the other Party a request with a complete application for the protection of an additional geographical indication as referred to in Article 12.26 (Amendment of the List of Geographical Indications).
3. A trademark as referred to in paragraph 1 may continue to be protected, used and renewed notwithstanding the protection of the geographical indication, provided that no grounds for the trademark's invalidity or revocation exist in the domestic legislation on trademarks of the Party concerned.

*Article 12.31***Enforcement of Protection**

1. Each Party shall provide for enforcement of protection of geographical indications by appropriate administrative action, to the extent provided for by its domestic law, to prohibit a person from manufacturing, preparing, packaging, labelling, selling, importing or advertising a food commodity in a manner that is false, misleading or deceptive or is likely to create an erroneous impression regarding its origin.
2. Each Party shall at least enforce the protection provided for in Articles 12.27 (Protection of Geographical Indications) and 12.30 (Relationship to Trademarks) at the request of an interested party.

*Article 12.32***General Rules**

1. Products bearing protected geographical indications shall comply with the product specifications, including any amendments thereto, approved by the authorities of the Party in the territory of which the product originates.
2. Any matter arising from product specifications of registered products shall be dealt with in the Working Group on Intellectual Property Rights, including Geographical Indications, referred to in Article 12.63 (Working Group on Intellectual Property Rights, including Geographical Indications).

*Article 12.33***Cooperation and Transparency**

1. The Parties shall, either directly or through the Working Group on Intellectual Property Rights, including Geographical Indications, referred to in Article 12.63 (Working Group on Intellectual Property Rights, including Geographical Indications), maintain contact on all matters relating to the implementation and functioning of this Sub-Section. In particular, a Party may request from the other Party information relating to product specifications, including any amendments thereto, and relevant contact points for control or management of geographical indications.

2. Each Party may make publicly available the product specifications, or a summary thereof, and relevant contact points for control or management of geographical indications of the other Party protected pursuant to this Sub-Section.

#### Sub-section 4

### Industrial Designs

#### Article 12.34

### International Treaties

The Parties shall accede to the *Geneva Act (1999) of the Hague Agreement Concerning the International Registration of Industrial Designs*, done at Geneva on 2 July 1999, within two years from the date of entry into force of this Agreement.

#### Article 12.35

### Protection of Registered Industrial Designs

1. The Parties shall provide for the protection of independently created industrial designs<sup>(60)</sup> that are new or original<sup>(61)</sup>. This protection shall be provided by registration and shall confer an exclusive right upon their holders in accordance with this Sub-Section<sup>(62)</sup>.

2. A design applied to or incorporated in a product which constitutes a component part of a complex product shall only be considered to be new and original:

(a) if the component part, once it has been incorporated into the complex product, remains visible during normal use of the latter; and

(b) to the extent that those visible features of the component part fulfil in themselves the requirements as to novelty and originality.

3. The term "normal use" in subparagraph 2(a) means use by the end user, excluding maintenance, servicing or repair work.

4. The owner of a registered design shall have the right to prevent third parties not having the owner's consent at least from making, offering for sale, selling, importing, or stocking for sale a product bearing or embodying the protected design when such acts are undertaken for commercial purposes.

5. The duration of protection available shall amount to at least 15 years.

#### Article 12.36

### Exceptions and Exclusions

1. A Party may provide limited exceptions to the protection of designs, provided that such exceptions do not unreasonably conflict with the normal exploitation of protected designs, and do not unreasonably prejudice the legitimate interests of the owner of the protected design, taking account of the legitimate interests of third parties.

2. Industrial design protection shall not extend to designs dictated essentially by technical or functional considerations.

<sup>(60)</sup> The Parties agree that when the domestic law of a Party so provides, a "design" means the appearance of the whole product or a separable or inseparable part of product.

<sup>(61)</sup> The Parties agree that when the domestic law of a Party so provides, individual character of designs can also be required. This refers to designs that significantly differ from known designs or combinations of known designs' features. The Union considers designs to have individual character if the overall impression it produces on the informed users differs from the overall impression produced on such a user by any design which has been made available to the public.

<sup>(62)</sup> It is understood that designs are not excluded from protection simply on the basis that they constitute a part of an article or product, provided that they are visible, fulfil the criteria of this paragraph, and:

(a) fulfil any other criteria for design protection; and

(b) are not otherwise excluded from design protection, in accordance with the Parties' respective domestic law.

## Article 12.37

**Relationship to Copyright**

A design shall also be eligible for protection under the law of copyright of a Party as from the date on which the design was created or, alternatively, fixed in any form. The eligibility for protection, the extent to which, and the conditions under which, such a copyright protection is conferred, including the level of originality required, shall be determined by that Party.

## Sub-Section 5

**Patents**

## Article 12.38

**International Agreements**

The Parties affirm their rights and obligations under the *Patent Cooperation Treaty*, done at Washington on 19 June 1970, as amended on 28 September 1979 and last modified on 3 October 2001. Each Party shall simplify and develop its patent registration procedures using, *inter alia*, the *Patent Law Treaty*, adopted in Geneva on 1 June 2000, as a reference point.

## Article 12.39

**Patents and Public Health**

1. The Parties recognise the importance of the *Declaration on the TRIPS Agreement and Public Health*, adopted on 14 November 2001 by the Ministerial Conference of the WTO, in Doha. In interpreting and implementing the rights and obligations under this Chapter, the Parties are entitled to rely upon that Declaration.

2. The Parties shall respect the Decision of the WTO General Council of 30 August 2003 on *Implementation of Paragraph 6 of the Doha Declaration on the TRIPS Agreement and Public Health*.

## Article 12.40

**Administrative Authorisation**

1. The Parties recognise that pharmaceutical products protected by a patent on their respective territory are generally subject to an administrative authorisation procedure before being put on their market (hereinafter referred to as the "marketing authorisation procedure").

2. Each Party shall provide for an adequate and effective mechanism to compensate the patent owner for the reduction in the effective patent life resulting from unreasonable delays<sup>(63)</sup> in the granting of the first marketing authorisation in its respective territory. Such compensation may be in the form of an extension of the duration of the rights conferred by patent protection, equal to the time by which the period referred to in the footnote to this paragraph is exceeded. The maximum duration of this extension shall not exceed two years.

3. As an alternative to paragraph 2, a Party may make available an extension, not exceeding five years<sup>(64)</sup>, of the duration of the rights conferred by the patent protection to compensate the patent owner for the reduction in the effective patent life as a result of the marketing authorisation procedure. The duration of the extension shall take effect at the end of the lawful term of the patent for a period equal to the period which elapsed between the date on which the application for a patent was filed and the date of the first marketing authorisation to place the product on the market in the Party, reduced by a period of five years.

<sup>(63)</sup> For the purposes of this Article, an "unreasonable delay" includes at least a delay of more than two years in the first response to the applicant following the date of filing of the application for marketing authorisation. Any delays that occur in the granting of a marketing authorisation due to periods attributable to the applicant or any period that is out of control of the marketing authorisation authority need not be included in the determination of such delay.

<sup>(64)</sup> This period can be extended for a further six months in the case of medicinal products for which paediatric studies have been carried out, where the results of those studies are reflected in the product information.

## Sub-Section 6

**Protection of undisclosed information**

## Article 12.41

**Protection of Undisclosed Information**

1. In order to implement Article 39 of the TRIPS Agreement, and in the course of ensuring effective protection against unfair competition as provided for in Article 10bis of the Paris Convention, each Party shall protect confidential information and data submitted to government or governmental agencies in accordance with this Article.
2. If a Party requires, as a condition for approving the marketing of pharmaceutical or agrochemical products, the submission of undisclosed test or other data, the origination of which involves a considerable effort, the Party shall protect such data against unfair commercial use. In addition, each Party shall protect such data against disclosure, except where necessary to protect the public.
3. Each Party shall provide that for data referred to in paragraph 2 that is submitted to the Party after the date of entry into force of this Agreement, no other applicant for marketing approval may, without permission of the person that submitted the data, rely on that data in support of an application for marketing approval during a reasonable period, which shall normally mean not less than five years from the date on which the Party granted approval to the person that produced the data for approval to market its product.

## Sub-Section 7

**Plant varieties rights**

## Article 12.42

**Plant Varieties Rights**

The Parties shall protect plant varieties rights in accordance with the *International Convention for the Protection of New Varieties of Plants*, adopted in Paris on 2 December 1961, as last revised in Geneva on 19 March 1991, including the exceptions to the breeder's right as referred to in Article 15 of that Convention, and cooperate to promote and enforce these rights.

## Section C

**Enforcement of intellectual property rights**

## Sub-Section 1

**General enforcement provisions**

## Article 12.43

**General Obligations**

1. The Parties affirm their rights and obligations under the TRIPS Agreement, in particular Part III thereof. Each Party shall provide for the complementary measures, procedures and remedies under this Section necessary to ensure the enforcement of intellectual property rights. <sup>(65)</sup> Those measures, procedures and remedies shall be fair and equitable, and shall not be unnecessarily complicated or costly, or entail unreasonable time limits or unwarranted delays.
2. The measures, procedures and remedies referred to in paragraph 1 shall be effective and proportionate and shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

<sup>(65)</sup> For the purposes of this Sub-Section, the term "intellectual property rights" should include at least the following rights: copyright; rights related to copyright; rights of the creator of the topographies of a semi-conductor product; trademark rights; design rights; patent rights; geographical indications; utility model rights; plant variety rights; trade names in so far as they are protected as intellectual property rights in the domestic law concerned.

*Article 12.44***Entitled Applicants**

Each Party shall recognise as persons entitled to seek application of the measures, procedures and remedies referred to in this Section and in Part III of the TRIPS Agreement:

*Sub-Section 2***Civil enforcement***Article 12.45***Provisional Measures**

1. Each Party shall ensure that its competent judicial authorities, upon request by a party who has presented reasonably available evidence to support his claims that his intellectual property right has been infringed or is about to be infringed, have the authority to order prompt and effective provisional measures to:

- (a) prevent an infringement of any intellectual property right from occurring, and, in particular, to prevent the entry into, and the movement within, the channels of commerce in their jurisdiction of goods, including imported goods immediately after customs clearance:
  - (i) an interlocutory injunction may be issued against a party whose services are being used by a third party to infringe an intellectual property right and over whom the relevant judicial authority exercises jurisdiction; and
  - (ii) in the case of an alleged infringement that is committed on a commercial scale, the Parties shall ensure that, if the applicant referred to in Article 12.44 (Entitled Applicants) demonstrates circumstances likely to endanger the recovery of damages, the judicial authorities may order the precautionary seizure or blocking of the movable and immovable property of the alleged infringer, including the blocking of his/her bank accounts and other assets;

and

- (b) preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information, which may include the detailed description, with or without the taking of samples, or the physical seizure of the alleged infringing goods and, in appropriate cases, the materials and implements used in the production or distribution of these goods, and the documents relating thereto.

2. Where appropriate, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed, the judicial authorities shall have the authority to adopt the provisional measures referred to in paragraph 1 without the other party being heard.

3. This Article is without prejudice to Article 50 of the TRIPS Agreement.

*Article 12.46***Evidence**

1. Each Party shall ensure that, on application by a party which has presented reasonably available evidence sufficient to support its claims and which has, in substantiating those claims, specified evidence which lies in the control of the opposing party, the competent judicial authorities may order that such evidence be presented by the opposing party, subject to the protection of confidential information. For the purposes of this paragraph, a Party may provide that a reasonable sample of a substantial number of copies of a work or any other protected object be considered by the competent judicial authorities to constitute reasonable evidence.

2. In the case of an infringement committed on a commercial scale each Party shall take such measures as are necessary to enable the competent judicial authorities to order, where appropriate, on application by a party, the communication of banking, financial or commercial documents under the control of the opposing party, subject to the protection of confidential information.

*Article 12.47***Right of Information**

1. Without prejudice to its domestic law governing the protection of confidentiality of information or processing of personal data, each Party shall ensure that, in civil proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the applicant, the competent judicial authorities may order the infringer, the alleged infringer or any other person to provide information, as provided for in its domestic laws and regulations, that the person concerned possesses or controls.

For the purposes of this paragraph, the term "any other person" may include a person who was:

- (a) found in possession of the infringing goods on a commercial scale;
- (b) found to be using the infringing services on a commercial scale;
- (c) found to be providing on a commercial scale services used in infringing activities; or
- (d) indicated by the person referred to in this paragraph as being involved in the production, manufacture or distribution of the infringing goods or the provision of the infringing services.

2. The information referred to in paragraph 1 may include information regarding any person involved on a commercial scale in the infringement or alleged infringement, and regarding the means of production and distribution networks of the infringing goods or services.

*Article 12.48***Other Remedies**

1. Each Party shall ensure that the competent judicial authorities shall have the authority to order, upon request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, and without compensation of any sort in such a manner as to minimise the risks of further infringements:

- (a) the recall from the channels of commerce <sup>(66)</sup>;
- (b) the disposal outside the channels of commerce; or
- (c) the destruction,

of goods that they have found to be infringing an intellectual property right.

The competent judicial authorities may also order destruction of materials and implements, the predominant use of which has been in the creation or manufacture of the infringing goods, or their disposal outside the channels of commerce in such a manner as to minimise the risks of further infringements.

2. The competent judicial authorities shall have the authority to order that the remedies referred to in paragraph 1, at least for the destruction, including the removal from the channels of commerce for destruction, be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

---

<sup>(66)</sup> Each Party shall ensure that this provision applies to infringing goods found in the channels of commerce and that infringers should be ordered to at least recall the goods from their customers, such as wholesalers, distributors, retailers.

*Article 12.49***Injunctions**

Each Party shall ensure that, when a judicial decision finds an infringement of an intellectual property right, the competent judicial authorities may issue against the infringer and, where appropriate, against a party whose services are being used by the infringer and over whom the judicial authority exercises jurisdiction, an injunction aimed at prohibiting the continuation of the infringement.

*Article 12.50***Alternative Measures**

A Party may provide that, in appropriate cases and upon request of the person liable to be subject to the measures provided for in Article 12.48 (Other Remedies) or Article 12.49 (Injunctions), the competent judicial authorities may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in Article 12.48 (Other Remedies) and Article 12.49 (Injunctions) if that person acted unintentionally and without negligence, if execution of the measures in question would cause him disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

*Article 12.51***Damages**

1. Each Party shall ensure that the competent judicial authorities have the authority to order the infringer who knowingly, or with reasonable grounds to know, engaged in an infringing activity, to pay the right holder damages to compensate for the actual injury the right holder has suffered as a result of the infringement.

In determining the amount of damages for infringement of intellectual property rights, the competent judicial authorities shall have the authority to:

- (a) take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer<sup>(67)</sup> and, in appropriate cases, elements other than economic factors<sup>(68)</sup>; and
- (b) in appropriate cases, set the damages as a lump sum on the basis of elements such as, at least, the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.

2. Where the infringer did not engage, knowingly or with reasonable grounds to know, in infringing activity, a Party may provide that the competent judicial authorities may order in favour of the injured party the recovery of profits or the payment of damages which may be pre-established.

*Article 12.52***Legal Costs**

Each Party shall provide that the competent judicial authorities, as a general rule and, where appropriate, have the authority to order that the prevailing party be awarded payment by the losing party of court costs or fees and appropriate attorney's fees, or any other expenses as provided for under that Party's domestic law.

<sup>(67)</sup> The calculation of unfair profits made by the infringer shall not be duplicated in calculating lost profits.

<sup>(68)</sup> The term "elements other than economic factors" shall include moral prejudice caused by the infringement of moral rights of inventors or authors.

*Article 12.53***Publication of Judicial Decisions**

The competent judicial authorities shall have the authority to order, pursuant to its domestic law and policies, the publishing or making available to the public, at the expense of the infringer, appropriate information concerning the final judicial decision.

*Article 12.54***Presumption of Authorship or Ownership**

The Parties recognise that, for the purposes of applying the measures, procedures and remedies provided for in this Chapter, it is sufficient for the name of an author of a literary or artistic work, and for the name of other right holders with regard to their protected subject-matter, to appear on the work or protected subject-matter in the usual manner in order for that author or other right holder to be regarded as such, unless there is proof to the contrary, and consequently to be entitled to institute infringement proceedings.

## Sub-Section 3

**Intermediary service providers***Article 12.55***Liability of Intermediary Service Providers**

1. Each Party shall, in accordance with this Article, provide for limitations or exemptions in its domestic legislation regarding the liability of intermediary service providers, in relation to the provision or use of their services, for infringements of copyright or related rights that take place on or through telecommunication networks <sup>(69)</sup>.
  2. The limitations or exemptions referred to in paragraph 1 shall cover at least the following activities:

      - (i) does not modify the information other than for technical reasons;
      - (ii) complies with conditions on access to the information;
      - (iii) complies with rules regarding the updating of the information, specified in a manner widely recognised and used by industry;

- and
- (c) the storage of information provided by a user of the service at the request of a user of the service ("hosting") on condition that the provider:

<sup>(69)</sup> For greater certainty, this includes the Internet.

<sup>(70)</sup> Nothing in this Chapter precludes either Party from defining in its domestic law conditions for determining how the knowledge of illegal information being hosted is obtained.

- (i) does not have the knowledge of illegal information; and
  - (ii) upon obtaining such knowledge <sup>(71)</sup>, acts expeditiously to remove or to disable access to the information concerned.
3. Each Party may in its domestic law provide for conditions under which intermediary service providers do not qualify for the limitations or exceptions set out in paragraph 2.
4. The eligibility conditions for intermediary service providers to qualify for the limitations or exceptions in paragraph 2 shall not include the intermediary service provider monitoring its service, or seeking facts indicating infringing activity.
5. Each Party may establish procedures for effective notifications of claimed infringement, and effective counter-notifications.

3. A Party shall not, through a sustained or recurring course of action or inaction, fail to effectively enforce its environmental and labour laws, as an encouragement for trade and investment.

2. If there is disagreement between the Parties on the reasonable period of time to comply with the final report, the complaining Party shall, within 20 days of the receipt of the notification made in accordance with paragraph 1 by the Party complained against, request, in writing, the arbitration panel established pursuant to Article 15.7 (Establishment of the Arbitration Panel) (hereinafter referred to as the "original arbitration panel") to determine the length of the reasonable period of time. That request shall be notified to the Party complained against, with a copy thereof sent to the Trade Committee.

A Party shall not require any additional technical requirements in the area regulated by such UNECE Regulations.

#### *Article 3*

#### **Regulatory Convergence**

1. Each Party shall refrain from introducing new domestic technical regulations diverging from the technical requirements of existing UNECE Regulations or UNECE Regulations the completion of which is imminent, in areas covered by those Regulations, unless there are substantiated reasons, based on scientific or technical information, why a specific technical requirement of a UNECE Regulation is ineffective or inappropriate for ensuring safety, or the protection of the environment or human health.
2. A Party which adopts new domestic technical regulations in accordance with paragraph 1 shall, upon request from the other Party, identify the parts of the domestic technical regulations which substantially deviate from the relevant technical requirements, markings or conformity assessment procedures of UNECE Regulations. That Party shall provide due justification as to the reasons for the deviation.

3. If a Party has adopted, in accordance with paragraph 1, and maintains domestic technical regulations that deviate from existing technical requirements, markings or conformity assessment procedures of UNECE Regulations, that Party shall review them at regular intervals, not exceeding five years, with a view to increasing their convergence with the relevant technical requirements, markings or conformity assessment procedures of UNECE Regulations. When reviewing its domestic technical regulations the Party shall consider whether the circumstances that gave rise to the deviation still exist. The outcome of those reviews, including the scientific and technical information which has been used, shall be notified to the other Party upon request.

#### Article 4

##### Market Access

1. Each Party shall accept on its market products covered by this Annex which are covered by a valid UNECE type-approval certificate as compliant with its domestic technical requirements or conformity assessment procedures, without further testing or marking requirements to verify or attest compliance with requirements in the area regulated by the relevant UNECE Regulations.

2. To parts and equipment referred to in subparagraphs 1(a) and 1(b) of Article 1 (General Provisions) of this Annex the following rules apply:

- (a) parts and equipment shall at the time of importation be accompanied by the relevant UNECE type-approval certificate. The importing Party shall endeavour to consider a valid UNECE type-approval marking affixed to those parts and equipment as sufficient proof of the existence of a valid UNECE type-approval certificate;
- (b) after Viet Nam has become a Contracting Party to the UNECE 1958 Agreement, it shall accept, according to the principles and procedures of the UNECE 1958 Agreement, a valid UNECE type-approval marking affixed to a part or equipment covered by this Annex as sufficient proof of the existence of a valid UNECE type-approval certificate where such UNECE type-approval marking is explicitly prescribed by the relevant UNECE Regulations which both Parties are bound to apply;
- (c) after Viet Nam has become a Contracting Party to the UNECE 1958 Agreement, the Union shall accept for parts and equipment a valid UNECE type-approval issued by a Vietnamese type-approval authority in accordance with the rights and obligations under the UNECE 1958 Agreement.

3. To whole motor vehicles of UNECE category M1 <sup>(1)</sup> referred to in subparagraph 1(a) of Article 1 (General Provisions) of this Annex the following rules apply:

- (a) Viet Nam shall accept on its market as compliant with its domestic technical regulations, without further testing requirements, such whole vehicles covered by this category for which a valid UNECE International Whole Vehicle Type Approval certificate has been issued by a Union type-approval authority according to the principles and procedures of the UNECE 1958 Agreement. The vehicle type that is imported for the first time into Viet Nam shall be accompanied by the valid UNECE International Whole Vehicle Type Approval certificate;

---

<sup>(1)</sup> For greater certainty, this includes pick-up vehicles classified in UNECE vehicle category M1.

(b) for a period of seven years, starting after five years from the date of entry into force of this Agreement, Viet Nam shall accept a valid whole vehicle EC Certificate of Conformity. The vehicle type that is imported for the first time into Viet Nam shall be accompanied by the relevant whole vehicle EC type-approval certificate; for the following importations of such vehicle type, the EC Certificate of Conformity shall be considered as sufficient proof for the existence of a valid EC whole vehicle type-approval certificate; when a UNECE International Whole Vehicle Type Approval certificate is available for whole motor vehicles, Viet Nam shall notify the Union as to whether it continues accepting valid whole vehicle EC Certificates of Conformity as alternative to the UNECE International Whole Vehicle Type Approval certificate of a specific vehicle category;

(c) after Viet Nam has become a Contracting Party to the UNECE 1958 Agreement and is applying UN Regulation No. 0 – Uniform provisions concerning the International Whole Vehicle Type Approval (IWVTA), the Union shall accept valid UNECE International Whole Vehicle Type Approval certificates issued by Viet Nam's type-approval authority in accordance with the rights and obligations under the UNECE 1958 Agreement.

4. Every month or upon notification to the UNECE, the competent authorities of each Party, which is a Contracting Party to the UNECE 1958 Agreement, shall send to the competent authorities of the other Party a list of the products covered by this Annex, approvals of which it has refused to grant or has withdrawn during the preceding period. In addition, on receiving a request from the competent authority of the other Party, a Party shall send, without delay, to that competent authority a copy of all relevant information on which it based its decision to grant, refuse to grant, or to withdraw an approval of a whole motor vehicle or an approval of parts or equipment.

5. Should the competent authorities of a Party find that certain products covered by this Annex bearing approval markings issued by a type-approval authority of the other Party under UNECE Regulations, or where applicable, Union laws and regulations for whole motor vehicles, do not conform to the approved type, they shall advise the competent authorities of the other Party which issued the approval. The other Party shall take the necessary steps to bring these products of its manufacturers into conformity with the approved types and shall advise the other Party of the steps it has taken, which may include, if necessary, the withdrawal of approval. Where there might be a threat to safety or to the environment, the Party which issued the approval and after receiving the information about the non-conformity to the approved type or types shall inform the other Party about the situation. A Party may prohibit the sale and use of such products covered by this Annex. In such cases and upon request, the Party which issued the approval shall send to the other Party all relevant information on the basis of which the approval has been granted.

6. The competent authorities of each Party may, in accordance with its domestic legislation, verify by random sampling whether the products covered by this Annex comply with the relevant domestic technical regulations and requirements. The compliance is attested, in the case of whole motor vehicles, by a UNECE International Whole Vehicle Type Approval certificate or, where applicable, by an EC type-approval certificate, and, in the case of parts and equipment, by a UNECE type-approval certificate showing compliance with the relevant UNECE Regulations. Each Party may require the supplier to withdraw a product covered by this Annex from its market in case the product concerned does not comply with those relevant domestic technical regulations and requirements.

#### *Article 5*

#### **Products with New Technologies or New Features**

1. Subject to its domestic legislation, a Party shall not unduly delay the placing on its market of parts and equipment referred to in subparagraphs 1(a) and 1(b) of Article 1 (General Provisions) of this Annex on the grounds that they incorporate a new technology or a new feature.

2. When a Party refuses the placing on its market, or requires the withdrawal from its market, of parts and equipment of the other Party referred to in subparagraphs 1(a) and 1(b) of Article 1 (General Provisions) of this Annex on the grounds that they incorporate a new technology or a new feature creating a risk for human health, safety or the environment, it shall immediately notify this decision and the reasons therefor to the economic operators concerned.

*Article 6*

**Other Measures Restricting Trade**

Each Party shall refrain from nullifying or impairing the market access benefits accruing to the other Party under this Annex through other regulatory measures specific to the sector covered by this Annex. This is without prejudice to the right of each Party to adopt measures necessary for safety, protection of the environment or human health and the prevention of deceptive practices, provided that such measures are based on substantiated scientific or technical information.

*Article 7*

**Cooperation**

1. In the Working Group on Motor Vehicles and Parts established by Article 17.3 (Working Groups), the Parties shall cooperate and exchange information on any issues relevant for the implementation of this Annex.

2. Pursuant to Chapter 16 (Cooperation and Capacity Building), a Party shall, upon request by the other Party, give appropriate consideration to proposals that the other Party makes for cooperation under this Annex. That cooperation shall be undertaken, *inter alia*, through dialogue in appropriate channels, joint projects, technical assistance and capacity-building programmes on technical regulations and conformity assessment procedures, as mutually agreed.

3. Subject to Chapter 16 (Cooperation and Capacity Building), cooperation shall focus on building up technical capacity with regard to enhancing testing competence and procedures for acceptance of type-approvals. Cooperation may include training, internships or exchange of experiences for officials of Viet Nam's type-approval authority in Union type-approval authorities or similar projects.

*Article 8*

**Implementation**

1. The Parties agree that the Working Group on Motor Vehicles and Parts shall facilitate the implementation of this Annex.

2. The Working Group on Motor Vehicles and Parts shall monitor the effective implementation of, and may consider any matter relating to, this Annex. Each Party shall establish a contact point for effective communication.

<sup>(1)</sup> This definition is without prejudice to Viet Nam's law on pharmacy No. 105/2016/QH13 and the Union's Directive 2001/83/EC of the European Parliament and of the Council of 6 November 2001 on the Community code relating to medicinal products for human use.

<sup>(2)</sup> For Viet Nam, this definition is without prejudice to the Viet Nam's legislation on medical devices.

<sup>(3)</sup> For Viet Nam, the standards, practices and guidelines of the ASEAN Consultative Committee on Standards and Quality (ACCSQ) are also a basis for scientific and technical regulations.

<sup>(4)</sup> With a view to implementing this provision Viet Nam shall amend its domestic legislation in order to abolish the requirement of a minimum period of existing authorisation in the territory of the Union, prior to the submission of a request for marketing approval in Viet Nam, and any additional requirements relating to clinical studies going beyond those stipulated in international practices (in particular ICH guidelines).

*Article 4***Transparency**

1. Each Party shall promptly publish or otherwise make available at an early appropriate stage its rules regarding any matter related to the pricing, reimbursement or regulation of pharmaceutical/medicinal products or medical devices, in such a manner as to enable interested persons to become acquainted with them.

3. Whenever possible, each Party shall allow a reasonable interval between the publication of the rules referred to in paragraph 1 and their entry into force.
4. If a Party has established an authority for the operation or the administration of its health care programmes and that authority introduces or operates procedures for the listing, pricing or reimbursement of pharmaceutical/medicinal products, that Party shall:
  - (a) ensure that all criteria, methodologies, rules, guidelines and other implementing measures, which apply to the listing, pricing or reimbursement of pharmaceutical/medicinal products, including those used to determine comparator products, are transparent, fair, reasonable and non-discriminatory and are disclosed promptly to the legal right holder of a product upon his or her request;
  - (b) ensure that decisions on all requests and applications for the pricing or approval of pharmaceutical/medicinal products for reimbursement are adopted and communicated within a reasonable and specified period of time from the date of their receipt;
  - (c) provide the legal right holder of a product with timely and meaningful opportunities to submit comments at relevant stages in the pricing and reimbursement decision-making processes, without prejudice to the laws and regulations on confidentiality of either Party; and
  - (d) provide, in case of a negative decision on listing, pricing or reimbursement, the legal right holder of a product with a statement of reasons, based upon objective and verifiable criteria, that is sufficiently detailed to understand the basis of the decision, including the criteria applied and, if appropriate, expert opinions or recommendations on which the decision is based. In addition, this right holder shall be informed of any available remedies under the domestic laws and regulations and of the time limits for introducing such remedies.

*Article 5***Origin Marking**

For pharmaceutical/medicinal products, Viet Nam may apply mandatory country of origin marking requirements at Member State level. Viet Nam is encouraged to consider accepting the marking "Made in EU" or a similar marking in the local language as fulfilling such country of origin marking requirements.

## SPECIFIC COMMITMENTS ON CROSS-BORDER SUPPLY OF SERVICES

1. The list of commitments specified in this Appendix indicates the service sectors liberalised pursuant to Article 8.12 (Schedule of Specific Commitments) and, by means of reservations, the market access and national treatment limitations that apply to services and service suppliers of Viet Nam in those sectors. This list of commitments is composed of the following elements:
  - (a) the first column indicates the sector or sub-sector in which the commitment is undertaken by the Union, and the scope of liberalisation to which the reservations apply; and
  - (b) the second column describes the applicable reservations.
2. Cross-border supply of services in sectors or sub-sectors covered by this Agreement and not specified in the table in this Appendix is not committed.
3. The list of commitments specified in this Appendix does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 8.10 (Market Access) and Article 8.11 (National Treatment). Those measures, such as the requirement to obtain a licence, universal service obligations, the requirement to obtain recognition of qualifications in regulated sectors and the requirement to pass specific examinations, including language examinations, even if not listed in the table in this Appendix, apply in any case to services and service suppliers of Viet Nam.
4. The list of commitments specified in this Appendix is without prejudice to the feasibility of the cross-border supply of services provided for in subparagraph (k) of Article 8.2 (Definitions) in certain service sectors and sub-sectors and without prejudice to the existence of public monopolies and exclusive rights as described in the list of commitments on liberalisation of investments set out in Appendix 8-A-2 (Specific Commitments on Liberalisation of Investments).
5. In accordance with paragraph 6 of Article 8.1 (Objectives and Scope), the list of commitments specified in this Appendix does not include measures concerning subsidies granted by a Party.
6. The rights and obligations arising from the list of commitments specified in this Appendix shall have no direct effect and confer no rights directly to natural or juridical persons.
7. The Union takes commitments differentiated by its Member States, where applicable.
8. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to natural or juridical persons of Viet Nam the treatment granted in a Member State to the natural and juridical persons of another Member State pursuant to the Treaty on the Functioning of the European Union, or to any measure adopted pursuant to that Treaty, including their implementation in the Member States. Such national treatment is granted only to juridical persons of Viet Nam established in accordance with the law of another Member State and having their registered office, central administration or principal place of business in that Member State, including those juridical persons established within the Union which are owned or controlled by nationals of Viet Nam.

*Appendix 8-A-2*

## SPECIFIC COMMITMENTS ON LIBERALISATION OF INVESTMENTS

1. The list of commitments specified in this Appendix indicates the economic activities liberalised pursuant to Article 8.7 (Schedule of Specific Commitments) and, by means of reservations, the market access, national treatment and performance requirements limitations that apply to enterprises and investors of Viet Nam in those activities. This list of commitments is composed of the following elements:
  - (a) the first column indicates the sector or sub-sector in which the commitment is undertaken by the Union, and the scope of liberalisation to which the reservations apply; and
  - (b) the second column describes the applicable reservations.
2. For greater certainty and without prejudice to paragraph 3 of Article 8.5 (National Treatment), reservations and commitments pursuant to Article 8.4 (Market Access), Article 8.5 (National Treatment) and Article 8.8 (Performance Requirements) included in this Appendix with respect to establishment shall continue to apply to enterprises and investors of Viet Nam after they have been established in the territory of the Union.
3. The Union does not undertake any commitments on market access, national treatment or performance requirements in sectors or sub-sectors covered by this Agreement and not mentioned in the Schedules specified in this Appendix.
4. The list of commitments specified in this Appendix does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 8.4 (Market Access) and 8.5 (National Treatment). Those measures, such as the need to obtain a licence, universal service obligations, the need to obtain recognition of qualifications in regulated sectors, the need to pass specific examinations, including language examinations, and the non-discriminatory requirement that certain activities may not be carried out in environmentally protected zones or areas of particular historic and artistic interest, even if not listed in this Appendix, apply in any case to enterprises and investors of Viet Nam.
5. In accordance with paragraph 6 of Article 8.1 (Objectives and Scope), the list of commitments specified in this Appendix does not include measures concerning subsidies granted by a Party.
6. Notwithstanding Article 8.4 (Market Access), non-discriminatory requirements as regards the type of legal form of an enterprise do not need to be specified in the list of commitments on liberalisation of investments of this Appendix in order to be maintained or adopted by the Union.
7. The rights and obligations arising from the list of commitments specified in this Appendix shall have no direct effect and confer no rights directly on natural or juridical persons.
8. When the Union maintains a reservation which requires that a service supplier be a citizen, national, permanent resident or resident of its territory as a condition to the performance of an economic activity, including services, in its territory, this reservation, as specified in the list of commitments in Appendix 8-A-3 (Specific Commitments in conformity with Section D (Temporary Presence of Natural Persons for Business Purposes) of Chapter 8 (Liberalisation of Investment, Trade in Services and Electronic Commerce)) shall operate as a reservation with respect to the commitments on liberalisation of investments taken in this Appendix in conformity with Article 8.7 (Schedule of Specific Commitments), to the extent applicable.
9. The Union takes commitments differentiated by its Member States, where applicable.
10. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to natural or juridical persons of Viet Nam the treatment granted in a Member State to the nationals and juridical persons of another Member State pursuant to the Treaty on the Functioning of the European Union, or to any measure adopted pursuant to that Treaty, including their implementation in the Member States. Such national treatment is granted only to juridical persons of Viet Nam established in accordance with the law of another Member State and having their registered office, central administration or principal place of business in that Member State, including those juridical persons established within the Union which are owned or controlled by nationals of Viet Nam.

22. When a Party considers that an arbitrator other than the chairperson does not comply with the requirements of Annex 15-B (Code of Conduct for Arbitrators and Mediators) and for that reason should be replaced, the Parties shall consult and, if they so agree, select a new arbitrator in accordance with Article 15.7 (Establishment of the Arbitration Panel) and Rules 8 to 11.

If the Parties fail to agree on the need to replace an arbitrator, any Party may request that this matter be referred to the chairperson of the arbitration panel, whose decision shall be final.

If, pursuant to such a request, the chairperson finds that an arbitrator does not comply with the requirements of Annex 15-B (Code of Conduct for Arbitrators and Mediators) and for that reason should be replaced, the new arbitrator shall be selected in accordance with Article 15.7 (Establishment of the Arbitration Panel) and Rules 8 to 11.

23. When a Party considers that the chairperson of the arbitration panel does not comply with the requirements of Annex 15-B (Code of Conduct for Arbitrators and Mediators) and for that reason should be replaced, the Parties shall consult and, if they so agree, select a new chairperson in accordance with Article 15.7 (Establishment of the Arbitration Panel) and Rules 8 to 11.

If the Parties fail to agree on the need to replace the chairperson, a Party may request that this matter be referred to one of the other persons remaining on the sub-list of chairpersons established under subparagraph 1(c) of Article 15.23 (List of Arbitrators). The name of that person shall be selected by lot by the chair of the Trade Committee, or the chair's delegate. The decision by that person concerning the need to replace the chairperson shall be final.

If that person decides that the original chairperson does not comply with the requirements of Annex 15-B (Code of Conduct for Arbitrators and Mediators) and for that reason should be replaced, that person shall select a new chairperson by lot among the other persons remaining on the sub-list of chairpersons established under subparagraph 1(c) of Article 15.23 (List of Arbitrators). The selection of the new chairperson shall be done within five days of the date of the submission of the date of the decision provided for under this Rule.

2. The competent authorities may make the granting of authorisation referred to in paragraph 1 subject to any conditions they deem appropriate.
3. The authorisation shall be granted only if by use of the accounting segregation method it can be ensured that, at any time, the number of products obtained which could be considered as originating in the Union or in Viet Nam is the same as the number that would have been obtained by using a method of physical segregation of the stocks.
4. If authorised, the accounting segregation method and its application shall be recorded on the basis of the general accounting principles applicable in the Union or in Viet Nam, depending on where the product is manufactured.
5. A manufacturer using the accounting segregation method shall make out or apply for origin declarations for the quantity of products which may be considered as originating in the exporting Party. At the request of the customs authorities or the competent authorities of the exporting Party, the beneficiary shall provide a statement of how the quantities have been managed.
6. The competent authorities shall monitor the use made of the authorisation referred to in paragraph 3 and may withdraw it if the manufacturer makes improper use of it or fails to fulfil any of the other conditions laid down in this Protocol.

*Section C***Territorial requirements***Article 12***Principle of Territoriality**

1. The conditions set out in Section B (Definition of the Concept of "Originating Products") relating to the acquisition of originating status shall be fulfilled without interruption in a Party.
2. If originating goods exported from a Party return from a third country, they shall be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that the returning goods:
  - (a) are the same as those exported; and
  - (b) have not undergone any operation beyond what is necessary to preserve them in good condition while they were in that third country or while being exported.

*Article 13***Non-Alteration**

1. The products declared for home use in a Party shall be the same products as exported from the other Party in which they are considered to originate. They shall not have been altered, transformed in any way or subjected to operations other than operations to preserve them in good condition or other than adding or affixing marks, labels, seals or any other documentation to ensure compliance with specific domestic requirements of the importing Party carried out under customs supervision in the country or countries of transit or splitting prior to being declared for home use.
2. Storage of products or consignments may take place provided they remain under customs supervision in the country or countries of transit.
3. Without prejudice to Section D (Proof of Origin), the splitting of consignments may take place where carried out by the exporter or under his responsibility, provided they remain under customs supervision in the country or countries of splitting.

4. In case of doubt, the importing Party may request the declarant to provide evidence of compliance, which may be given by any means, including:

- (a) contractual transport documents such as bills of lading;
- (b) factual or concrete evidence based on marking or numbering of packages;
- (c) any evidence related to the goods themselves;
- (d) a certificate of non-manipulation provided by the customs authorities of the country or countries of transit or splitting, or any other documents demonstrating that the goods remained under customs supervision in the country or countries of transit or splitting.

- (b) the products have been sold or otherwise disposed of by that exporter to a person in a Party;
- (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and
- (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin must be issued or made out in accordance with the provisions of Section D (Proof of Origin) and submitted to the customs authorities of the importing Party in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which the products have been exhibited may be required.

3. Paragraph 1 applies to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, provided that the products remain under customs control.

#### **Procedure for the Issuance of a Certificate of Origin**

1. A certificate of origin shall be issued by the competent authorities of the exporting Party on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.
2. For this purpose, the exporter or his authorised representative shall fill out both the certificate of origin, specimen of which appears in Annex VII to this Protocol, and the application form. The specimen of the application form to be used for exports from the Union to Viet Nam appears in Annex VII to this Protocol; the specimen of the application form to be used for exports from Viet Nam to the Union shall be determined in the domestic legislation of Viet Nam. These forms shall be completed in one of the languages in which this Agreement is drawn up and in accordance with the domestic law of the exporting Party. If they are hand-written, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through to prevent any subsequent addition.
3. The exporter applying for the issuance of a certificate of origin shall be prepared to submit at any time, at the request of the competent authorities of the exporting Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
4. A certificate of origin shall be issued by the competent authorities of the exporting Party if the products concerned can be considered as products originating in the Union or in Viet Nam and fulfil the other requirements of this Protocol.
5. The competent authorities issuing certificates of origin shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
6. The date of issuance of the certificate of origin shall be indicated in Box 11 of the certificate.
7. The certificate of origin shall be issued as soon as possible to but not later than three working days after the date of exportation (the declared shipment date).

*Article 17***Certificates of Origin Issued Retrospectively**

1. Notwithstanding paragraph 7 of Article 16 (Procedure for the Issuance of a Certificate of Origin), a certificate of origin may also be issued after exportation of the products to which it relates in specific situations where:
  - (a) it was not issued at the time of exportation because of errors, involuntary omissions or other valid reasons;
  - (b) it is demonstrated to the competent authorities that a certificate of origin was issued but was not accepted at importation for technical reasons; or
  - (c) the final destination of the products concerned was not known at the time of exportation and was determined during their transportation, storage or after splitting of consignments in accordance with Article 13 (Non-Alteration).
2. For the implementation of paragraph 1, the exporter shall indicate in his application the place and date of exportation of the products to which the certificate of origin relates, and state the reasons for his request.
3. The competent authorities may issue a certificate of origin retrospectively only after verifying that the information supplied in the exporter's application conforms with that in the corresponding file.
4. Certificates of origin issued retrospectively shall be endorsed with the following phrase in English: "ISSUED RETROSPECTIVELY".
5. The endorsement referred to in paragraph 4 shall be inserted in Box 7 of the certificate of origin.

*Article 18***Issuance of a Duplicate Certificate of Origin**

1. In the event of theft, loss or destruction of a certificate of origin, the exporter may apply to the competent authorities which issued it for a duplicate made out on the basis of the export documents in their possession.
2. The duplicate issued in this way must be endorsed with the following word in English: "DUPLICATE".
3. The endorsement referred to in paragraph 2 shall be inserted in Box 7 of the duplicate certificate of origin.
4. The duplicate, which must bear the date of issue of the original certificate of origin, shall take effect as from that date.

*Article 19***Conditions for Making out an Origin Declaration**

1. An origin declaration may be made out if the products concerned can be considered as products originating in the Union or in Viet Nam and fulfil the other requirements of this Protocol.
2. The exporter making out an origin declaration shall be prepared to submit at any time, at the request of the competent authorities of the exporting Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
3. An origin declaration shall be made out by the exporter on the invoice, the delivery note or any other commercial document which describes the products concerned in sufficient details to enable them to be identified, by typing, stamping or printing on that document the declaration, the text of which appears in Annex VI to this Protocol, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting Party. If the declaration is hand-written, it shall be written in ink in capital characters.
4. Origin declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 20 (Approved Exporter) shall not be required to sign such declarations provided that he gives the competent authorities of the exporting Party a written undertaking that he accepts full responsibility for any origin declaration which identifies him as if it had been signed in manuscript by him.

5. An origin declaration may be made out after exportation provided that it is presented in the importing Party no later than two years, or the period specified in the legislation of the importing Party, after the entry of the goods into the territory.

6. The conditions for making out an origin declaration referred to in paragraphs 1 to 5 apply *mutatis mutandis* to statements of origin made out by an exporter registered as provided for in subparagraphs 1(c) and 2(c) of Article 15 (General Requirements).

#### Article 20

##### Approved Exporter

1. The competent authorities of the exporting Party may authorise any exporter (hereinafter referred to as "approved exporter") who exports products under this Agreement to make out origin declarations irrespective of the value of the products concerned. An exporter seeking such authorisation shall offer to the satisfaction of the competent authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The competent authorities may grant the status of approved exporter subject to any conditions specified in domestic legislation which they consider appropriate.

3. The competent authorities shall grant to the approved exporter an authorisation number which shall appear on the origin declaration.

4. The competent authorities shall monitor the use of the authorisation by the approved exporter.

5. The competent authorities may withdraw the authorisation at any time. They shall do so when the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

#### Article 21

##### Validity of Proof of Origin

1. A proof of origin shall be valid for 12 months from the date of issuance in the exporting Party, and shall be submitted to the customs authorities of the importing Party within that period.

2. Proofs of origin which are submitted to the customs authorities of the importing Party after the period of validity referred to in paragraph 1 may be accepted for the purpose of applying preferential tariff treatment, when the importer failed to submit those documents by the final date of the period of validity due to *force majeure* or other valid reasons beyond that person's control.

3. In other cases of belated presentation, the customs authorities of the importing Party may accept the proofs of origin when the products have been imported within the period of validity referred to in paragraph 1.

#### Article 22

##### Submission of Proof of Origin

For the purpose of claiming preferential tariff treatment, proofs of origin shall be submitted to the customs authorities of the importing Party in accordance with the procedures applicable in that Party. Those authorities may request a translation of the proof of origin if it is not issued in English.

#### Article 23

##### Importation by Instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing Party, dismantled or non-assembled products within the meaning of General Rule 2(a) of the HS falling within Sections XVI and XVII or headings 7308 and 9406 of the HS are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

*Article 24***Exemptions from Proof of Origin**

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22, CN23 or on a sheet of paper attached to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose exists.
3. Furthermore, the total value of the products referred to in paragraphs 1 and 2 shall not exceed:
  - (a) when entering the Union, EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage;
  - (b) when entering Viet Nam, USD 200, both in the case of small packages and in the case of products forming part of travellers' personal luggage.

*Article 25***Supporting Documents**

The documents referred to in paragraph 3 of Article 16 (Procedure for the Issuance of a Certificate of Origin) and paragraph 2 of Article 19 (Conditions for Making out an Origin Declaration), used for the purpose of proving that products covered by an origin declaration or a certificate of origin can be considered as products originating in the Union or in Viet Nam and fulfil the other requirements of this Protocol, may consist, *inter alia*, of the following:

- (a) direct evidence of the manufacturing or other processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in a Party, where those documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in a Party, issued or made out in a Party, where those documents are used in accordance with domestic law; or

2. The competent authorities of the exporting Party issuing a certificate of origin shall keep for at least three years the application form referred to in paragraph 2 of Article 16 (Procedure for the Issuance of a Certificate of Origin).
3. The customs authorities of the importing Party shall keep for at least three years the proofs of origin submitted to them.

4. Each Party shall permit, in accordance with that Party's laws and regulations, exporters in its territory to maintain documentation or records in any form or medium, provided that the documentation or records can be retrieved and printed.

#### Article 27

##### **Discrepancies and Formal Errors**

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document corresponds to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin shall not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

3. For multiple goods declared under the same proof of origin, a problem encountered with one of the goods listed shall not affect or delay the granting of preferential tariff treatment and customs clearance of the remaining goods listed in the proof of origin.

#### Article 28

##### **Amounts Expressed in Euro**

1. For the application of subparagraph 1(b)(ii) of Article 15 (General Requirements) and subparagraph 3(a) of Article 24 (Exemptions from Proof of Origin) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Member States of the Union or of Viet Nam equivalent to the amounts expressed in euro shall be fixed annually by each Party.

2. A consignment shall benefit from subparagraph 1(b)(ii) of Article 15 (General Requirements) and subparagraph 3(a) of Article 24 (Exemptions from Proof of Origin) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the Party concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January of the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A Party may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A Party may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Committee on Customs at the request of the Union or of Viet Nam. When carrying out that review, the Committee on Customs shall consider the desirability of preserving the effects of the limits concerned in real terms. For that purpose, it may decide to modify the amounts expressed in euro.

#### Section E

##### **Arrangements for administrative cooperation**

#### Article 29

##### **Cooperation between Competent Authorities**

1. The authorities of the Parties shall provide each other, through the European Commission, with specimen impressions of stamps used in their competent authorities for the issue of certificates of origin and with the addresses of the customs authorities responsible for verifying those certificates and origin declarations.

2. In order to ensure the proper application of this Protocol, the Parties shall assist each other, through their competent authorities, in verifying the authenticity of the certificates of origin or the origin declarations and the correctness of the information given in these documents.

*Article 30***Verification of Proofs of Origin**

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the competent authorities of the importing Party have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purpose of implementing the provisions of paragraph 1, the competent authorities of the importing Party shall return the certificate of origin and the invoice, if it has been submitted, or the origin declaration, or a copy of these documents, to the competent authorities of the exporting Party giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the competent authorities of the exporting Party. For that purpose, they shall have the right to request any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. If the competent authorities of the importing Party decide to suspend the granting of preferential tariff treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures deemed necessary. Any suspension of preferential tariff treatment shall be reinstated as soon as possible after the originating status of the products concerned or the fulfilment of the other requirements of this Protocol has been ascertained by the competent authorities of the importing Party.
5. The competent authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Parties and fulfil the other requirements of this Protocol.
6. If in cases of reasonable doubt there is no reply within 10 months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting competent authorities may, except in exceptional circumstances, refuse entitlement to the preferential tariff treatment.

*Article 31***Dispute Settlement**

1. Where disputes arise in relation to the verification procedures provided for in Article 30 (Verification of Proofs of Origin) which cannot be settled between the competent authorities requesting a verification and the competent authorities responsible for carrying out this verification, they shall be submitted to the Committee on Customs.
2. Disputes between the importer and the competent authorities of the importing Party, shall be settled in accordance with the legislation of that Party.

*Article 32***Penalties**

Each Party shall provide for procedures for penalties to be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining preferential tariff treatment for products.

*Article 33***Confidentiality**

Each Party shall maintain, in accordance with its law, the confidentiality of information and data collected in the process of verification and shall protect that information and data from disclosure that could prejudice the competitive position of the person providing them. Any information and data communicated between the authorities of the Parties competent for the administration and enforcement of origin determination shall be treated as confidential.

## ANNEX I to Protocol 1

## INTRODUCTORY NOTES TO ANNEX II (LIST OF REQUIRED WORKING OR PROCESSING)

## Note 1 – General Introduction

The list in Annex II to Protocol 1 sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 5 (Sufficiently Worked or Processed Products). There are four different types of rules, which vary according to the product:

- (a) through working or processing a maximum content of non-originating materials is not exceeded;
- (b) through working or processing the four-digit HS heading or six-digit HS subheading of the manufactured products becomes different from the four-digit HS heading or six-digit HS subheading, respectively, of the materials used. However, in the case set out in the second paragraph of Note 3.3., the four-digit HS heading or six-digit HS subheading of the manufactured products may be the same as the four-digit HS heading or six-digit HS subheading, respectively, of the materials used;
- (c) a specific working and processing operation is carried out; or
- (d) working or processing is carried out on certain wholly obtained materials.

## Note 2 – The Structure of the List of Required Working or Processing

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or Chapter number used in the HS and the second column gives the description of goods used in that system for that heading or Chapter. For each entry in the first two columns, a rule is specified in column 3. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a Chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 apply to all products which, under the HS, are classified in headings of the Chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3.
- 2.4. Where two alternative rules are set out in column 3 that are separated by use of a different line and linked by an "or", it shall be at the choice of the exporter which one to use.

## Note 3 – Examples of How to Apply the Rules

- 3.1. Article 5 (Sufficiently Worked or Processed Products), concerning products having acquired originating status which are used in the manufacture of other products, applies regardless of whether that status has been acquired inside the factory where those products are used or in another factory in a Party.

- 3.2. Pursuant to Article 6 (Insufficient Working or Processing), the working or processing carried out must go beyond the list of operations mentioned in that Article. If it does not, the goods shall not qualify for the granting of the preferential tariff treatment, even if the conditions set out in the list below are met.

Subject to the first paragraph, the rules in the list represent the minimum amount of working or processing required. The carrying-out of more working or processing also confers originating status, without prejudice to Article 6 (Insufficient Working or Processing). Conversely, the carrying-out of less working or processing shall not confer originating status.

- 3.3. Where a rule uses the expression "Manufacture from materials of any heading, except that of the product" all non-originating materials classified in headings other than that of the product may be used (Change in Tariff Heading).

Where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used.

- 3.4. Where a rule uses the expression "Manufacture in which the value of all the materials used does not exceed x % of the ex-works price of the product" then the value of all non-originating materials is to be considered and the percentage for the maximum value of non-originating materials may not be exceeded through the use of paragraph 3 of Article 5 (Sufficiently Worked or Processed Products).

- 3.5. If a rule provides that a specific non-originating material may be used, the use of materials which are still in an earlier stage of the manufacturing process of that specific material is allowed, and the use of materials resulting from further processing of that specific non-originating material is not.

If a rule provides that a specific non-originating material may not be used, the use of materials which are still in an earlier stage of the manufacturing process of that specific non-originating material is allowed, and the use of materials resulting from further processing of that specific non-originating material is not.

Example: when the rule for Chapter 19 requires that "non-originating materials of headings 1101 to 1108 cannot exceed 20 % of the weight", the use of non-originating cereals of Chapter 10 (materials at an earlier stage in the manufacturing process of goods of headings 1101 to 1108) is not limited by the requirement concerning the 20 % of the weight.

- 3.6. When a rule specifies that a product may be manufactured from more than one material, one or more materials may be used. It does not require that all materials be used.

- 3.7. Where a rule specifies that a product must be manufactured from a particular material, it does not prevent the use of other materials which, because of their inherent nature, cannot satisfy that requirement.

Example: Flat-rolled products of iron and non-alloy steel, of a width of 600 mm or more, which have been painted, varnished or coated with plastics are classified in the HS under 7210 70. The rule for 7210 is "Manufacture from ingots or other primary forms or semi-finished materials of heading 7206 or 7207". This rule does not prevent the use of non-originating paint and varnish (heading 3208) or plastics (Chapter 39).

#### Note 4 – General Provisions Concerning Certain Agricultural Goods

4.1. Agricultural goods falling within Chapters 6, 7, 8, 9, 10 and 12 and heading 2401 which are grown or harvested in a Party shall be treated as originating in that Party, even if grown from seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants imported from a third country.

4.2 Whenever the rules for products in Chapters 1 to 24 incorporate some limitations in weight, it should be noted that in accordance with paragraph 2 of Article 5 (Sufficiently Worked or Processed Products), those limitations in weight only apply to non-originating materials. Consequently, originating materials are not to be taken into account for the calculation of the limitations in weight. In addition, those limitations are expressed in different manners. In particular:

- (a) When the rule uses the expression "the weight of the materials of Chapters/headings", the weight of each material mentioned shall be added up and the total weight shall not exceed the maximum percentage.

Example: The rule for Chapter 19 provides that the weight of the materials of Chapters 2, 3 and 16 used does not exceed 20 % of the weight of the final product. In case the weight of the final product contains 12 % of materials of Chapter 3 and 10 % of materials of Chapter 16, the product does not meet the origin conferring rule of Chapter 19 as the combined weight exceeds 20 % of the weight of the final product.

- (b) When the rule uses the expression "the individual weight of the materials of Chapters/headings" the weight of each material mentioned shall not exceed the maximum percentage. The combined weight of the materials added together has no relevance.

Example: The rule for Chapter 22 provides that the individual weight of sugar and of the materials of Chapter 4 does not exceed 20 % of the weight of the final product. In case the weight of the final product contains 15 % of sugar as well as 10 % of materials of Chapter 4, the origin conferring rule of Chapter 22 is complied with. Each individual material is less than 20 % of the weight of the final product. On the contrary, in case the weight of the final product contains 25 % of sugar and 10 % of materials of Chapter 4, the origin conferring rule is not complied with.

- (c) When the rule uses the expression "the total combined weight of sugar and the materials of Chapter 4 used does not exceed x % of the weight of the final product", both the weight of the sugar and the materials of Chapter 4 shall meet individually their weight limitation, and their combined weights added up shall meet the combined weight limitation. A combined weight limitation expresses a further restriction to the individual weight limitations.

Example: The rule for heading 1704 provides that the total combined weight of sugar and the materials of Chapter 4 used does not exceed 50 % of the weight of the final product. The individual weight limitations for materials of Chapter 4 are 20 % and for sugar 40 %. In case the weight of the final product contains 35 % of sugar and 15 % of materials of Chapter 4, both the individual weight limitations and the combined weight limitations of the origin conferring rule of heading 1704 are complied with. On the contrary, in case the weight of the final product contains 35 % of sugar and 20 % of materials of Chapter 4, the combined weight represents 55 % of the weight of the final product. In that case the individual weight limitations are respected but the combined weight limitation is exceeded and therefore the origin conferring rule of heading 1704 is not complied with.

#### Note 5 – Terminology Used in Respect of Certain Textile Products

5.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.

- 5.2. The term "natural fibres" includes horsehair of heading 0511, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 5.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 5.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste of headings 5501 to 5507.

Note 6 – Tolerances Applicable to Products Made of a Mixture of Textile Materials

- 6.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 6.3 and 6.4).
- 6.2. However, the tolerance mentioned in Note 6.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,

- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605,
- glass fibres,
- metal fibres.

Example: A yarn of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin rules may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

Example: A woollen fabric of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin rules, or woollen yarn which does not satisfy the origin rules, or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

Example: Tufted textile fabric of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is only a mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example: If the tufted textile fabric concerned was made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 6.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20 % in respect of this yarn.
- 6.4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30 % in respect of this strip.

#### Note 7 – Other Tolerances Applicable to Certain Textile Products

- 7.1. Where, in the list, reference is made to this Note, textile materials which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 7.2. Without prejudice to Note 7.3, materials which are not classified within Chapters 50 to 63 may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example: If a rule provides that, for a particular textile item (such as trousers), yarn shall be used, it does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 7.3. Where a percentage rule applies, the value of non-originating materials which are not classified within Chapters 50 to 63 shall be taken into account when calculating the value of the non-originating materials incorporated.

#### Note 8 – Definition of Specific Processes and Simple Operations Carried out in Respect of Certain Products of Chapter 27

- 8.1. For the purposes of headings ex 2707 and 2713, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

(g) polymerisation;

(h) alkylation; and

(i) isomerisation.

8.2. For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

(a) vacuum-distillation;

(b) redistillation by a very thorough fractionation process;

(c) cracking;

(d) reforming;

(e) extraction by means of selective solvents;

(f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

(g) polymerisation;

(h) alkylation;

(i) isomerisation;

(j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method);

(k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;

(l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;

(n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush discharge; and

(o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0,75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

8.3. For the purposes of headings ex 2707 and 2713, simple operations, such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, or any combination of these operations or like operations, do not confer origin.

## ANNEX VIII to Protocol 1

## EXPLANATORY NOTES

1. For the purpose of subparagraph (e) of Article 1 (Definitions) the "exporter" is not necessarily the person (the seller) that issues the sales invoice for the consignment (third party invoicing). The seller can be located in the territory of a third country.
  2. For the purpose of subparagraph 1(b) of Article 4 (Wholly Obtained Products) "plants and vegetable products" includes, in particular, live trees, flowers, fruits, vegetables, seaweeds and fungi.
  3. For the purpose of paragraph 4 of Article 11 (Accounting Segregation) "general accounting principles" means the recognised consensus or substantial authoritative support in the territory of a Party, with respect to the recording of revenues, expenses, costs, assets and liabilities; the disclosure of information; and the preparation of financial statements. Those standards may encompass broad guidelines of general application as well as detailed standards, practices and procedures.
  4. For the purpose of paragraph 4 of Article 13 (Non-Alteration) "in case of doubt" means that the importing Party has the discretion of determining the cases for which the declarant is requested to provide evidence of compliance with Article 13 (Non-Alteration) but it cannot routinely require the submission of that evidence.
  5. For the purpose of paragraph 1 of Article 16 (Procedure for the Issuance of a Certificate of Origin) "in writing" includes an application being made by electronic means.
  6. For the purpose of paragraph 3 of Article 16 (Procedure for the Issuance of a Certificate of Origin) and paragraph 2 of Article 19 (Conditions for Making out an Origin Declaration) "to submit at any time, at the request of the competent authorities of the exporting Party, all appropriate documents" covers both the situation whereby the competent authorities request systematically the submission of all supporting documents as well as the situation whereby the competent authorities only make targeted requests for the submission of the supporting documents.
  7. For the purpose of paragraph 3 of Article 19 (Conditions for Making out an Origin Declaration), "any other commercial document" can be, for example, an accompanying delivery note, a pro-forma invoice or a packing list. A transport document, such as a bill of lading or an airway bill, shall not be considered as any other commercial document. An origin declaration on a separate form is not permitted. The origin declaration may be submitted on a separate sheet of the commercial document when the sheet is an obvious part of this document.
  8. As regards the application of Article 30 (Verification of Proofs of Origin), the customs authorities of the exporting country shall endeavour to inform the importing authorities about the receipt of the verification request. They may do so in any form, including by means of electronic communication. They shall also endeavour to inform the requesting authorities in case they need more time than the period of 10 months provided for in paragraph 6 of Article 30 (Verification of Proofs of Origin) to carry out the verification and provide a reply.
  9. As regards the application of paragraph 6 of Article 30 (Verification of Proofs of Origin), the requesting competent authorities shall verify with the requested competent authorities whether they have effectively received the request before refusing the entitlement to preferential tariff treatment.

*Article 1***Definitions**

For the purposes of this Protocol:

*Article 2***Scope**

1. The Parties shall assist each other in customs matters, in accordance with their legislation and in the manner and under the conditions laid down in this Protocol, to ensure the correct application of customs legislation, in particular by preventing, investigating and combating customs violations.
2. Assistance in customs matters, as provided for in this Protocol, applies to any administrative authority of the Parties which is competent for the application of this Protocol. That assistance shall not prejudice the rules governing mutual assistance in criminal matters. It shall not cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.
3. All assistance given in the framework of this Protocol shall be executed in accordance with the legal and regulatory provisions of each Party.
4. Assistance to recover duties, taxes or fines is not covered by this Protocol.

*Article 3***Assistance on Request**

1. At the request of the requesting authority, the requested authority shall provide it with all relevant information for the purpose of ensuring the proper application of customs legislation, including information on noted or planned activities that constitute or could constitute customs violations.
2. At the request of the requesting authority, the requested authority shall inform it:
  - (a) whether goods exported from the territory of a Party have been properly imported into the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods; and
  - (b) whether goods imported into the territory of a Party have been properly exported from the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods.
3. At the request of the requesting authority, the requested authority shall, within the framework of its legal or regulatory provisions, take the necessary steps to ensure special surveillance of:
  - (a) natural or legal persons in respect of which there are reasonable grounds for believing that they are or have been involved in customs violations;
  - (b) places where stocks of goods have been or may be assembled in such a way that there are reasonable grounds for believing that those goods are intended to be used in customs violations;
  - (c) goods that are or may be transported in such a way that there are reasonable grounds for believing that they are intended to be used in customs violations; and
  - (d) means of transport that are or may be used in such a way that there are reasonable grounds for believing that they are intended to be used in customs violations.

*Article 4***Spontaneous Assistance**

The Parties shall assist each other on their own initiative and in accordance with their respective domestic laws and regulations if they consider that assistance is necessary for the proper application of customs legislation by the other Party, particularly by providing information relating to:

- (a) activities which are or appear to be customs violations and which may be of interest to the other Party;
- (b) new means of, or methods employed in, carrying out customs violations;
- (c) goods known to be subject to customs violations;

- (d) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in customs violations; and
- (e) means of transport in respect of which there are reasonable grounds for believing that they have been, are, or may be used in customs violations.

#### *Article 5*

### **Delivery and Notification**

At the request of the requesting authority, the requested authority, in accordance with the legal or regulatory provisions applicable to that authority, shall take all necessary measures in order to deliver any documents, or to notify any decisions, of the requesting authority, and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

#### *Article 6*

### **Form and Substance of Requests for Assistance**

1. Requests pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, the requested authority may accept an oral request, but such request shall be immediately confirmed by the requesting authority in writing.
2. Requests pursuant to paragraph 1 shall include the following information:
  - (a) the requesting authority;
  - (b) the measure requested;
  - (c) the object of and the reason for the request;
  - (d) the legal or regulatory provisions and other legal elements involved;
  - (e) indications, as exact and comprehensive as possible, on the natural or legal persons who are the target of the investigations; and
  - (f) a summary of the relevant facts and of the enquiries already carried out.
3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement does not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out in paragraphs 1 to 3, its correction or completion may be requested and precautionary measures may be ordered in the meantime.

#### *Article 7*

##### **Execution of Requests**

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party, by supplying information already in its possession, by carrying out appropriate enquiries or by arranging for them to be carried out. If the requested authority addresses the request to another authority because it cannot act alone, this paragraph shall also apply to that other authority.

2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Party.

3. Duly authorised officials of a Party may, with the agreement of the other Party and subject to the conditions laid down by the latter, be present in the offices of the requested authority or any other authority concerned to obtain information, in accordance with paragraph 1, which relates to activities that constitute or could constitute customs violations and which the requesting authority needs for the purposes of this Protocol.

4. Duly authorised officials of a Party may, with the agreement of the other Party and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

#### *Article 8*

##### **Form in Which Information Is to Be Communicated**

1. The requested authority shall communicate the results of enquiries to the requesting authority in writing together with relevant documents, certified copies or other items.

2. This information may be provided in electronic format.

#### *Article 9*

##### **Exceptions to the Obligation to Provide Assistance**

1. Assistance may be refused or may be subject to certain conditions or requirements in cases where a Party considers that assistance under this Protocol would:

(a) be likely to prejudice the sovereignty of Viet Nam or that of a Member State which has been requested to provide assistance under this Protocol;

(b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to in paragraph 2 of Article 10; or

(c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the grounds that it will interfere with an ongoing investigation or prosecution, or with ongoing proceedings. In such a case, the requested authority shall consult with the requesting authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the requesting authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. In the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefor must be communicated to the requesting authority without delay.

#### *Article 10*

### **Information Exchange and Confidentiality**

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, in accordance with the laws and regulations applicable in each Party. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws and regulations of the Party receiving the information.

2. Personal data may be exchanged only where the Party which may receive them undertakes to protect such data in a manner that is considered adequate by the Party which may supply them.

3. The use of information obtained under this Protocol in administrative proceedings or subsequent appeal proceedings instituted in respect of customs violations is considered to be for the purposes of this Protocol. Therefore, the Parties may, in their records of evidence, reports, testimonies and in such proceedings, use as evidence information obtained and documents consulted in accordance with this Protocol. The requested authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. If a Party wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restriction laid down by that authority.

#### *Article 11*

### **Assistance Expenses**

The Parties shall waive all claims against each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, those for interpreters and translators who are not public service employees.

#### *Article 12*

### **Implementation**

1. The implementation of this Protocol shall be entrusted, on the one hand, to the customs authorities of Viet Nam and, on the other hand, to the competent services of the European Commission and the customs authorities of the Member States, as appropriate. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in particular in the field of data protection.

2. The Parties shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with this Protocol.

### Article 13

#### Other Agreements

1. Taking into account the respective competences of the Union and its Member States, the provisions of this Protocol shall:

- (a) not affect the obligations of the Parties under any other international agreement or convention;
- (b) be deemed complementary to agreements on mutual assistance which have been or may be concluded between individual Member States and Viet Nam; and
- (c) not affect the provisions of Union law governing the communication between the competent services of the European Commission and the customs authorities of the Member States of any information obtained under this Protocol which could be of interest to the Union.

2. Notwithstanding paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral agreement on mutual assistance which has been or may be concluded between individual Member States and Viet Nam insofar as the provisions of the latter are incompatible with those of this Protocol.

3. In respect of questions relating to the application of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Committee on Customs, established pursuant to Article 17.2 (Specialised Committees) of this Agreement.

#### UNDERSTANDING CONCERNING SPECIFIC COMMITMENTS ON DISTRIBUTION SERVICES FOR WINE AND SPIRITS

The following Understanding was reached between the delegations of the Union and Viet Nam during the course of negotiations of this Agreement regarding specific commitments on distribution services <sup>(1)</sup> for wine and spirits <sup>(2)</sup>:

1. Viet Nam shall not:

- (a) apply any discriminatory quantitative or qualitative restrictions, whether vertical or horizontal, on licensing of any type of distribution services for wine on a regional or nationwide basis;
- (b) discriminate between Union and local service suppliers of any type of distribution services for wine; and
- (c) require any other types of licences than the ones describing each type of distribution services for wine.

<sup>(1)</sup> For the purposes of this Understanding, the term “distribution services” means commission agents’ services, wholesale trade services and retailing services.

<sup>(2)</sup> For greater certainty, beers are excluded from the scope of this Understanding.

2. For further clarity, the Union's service suppliers are entitled to engage in all types of distribution services for wine not only on a regional but also on a nationwide basis. Viet Nam shall, therefore, not apply any discriminatory measure which restricts the right of service providers to hold a single licence for the provision of all types of distribution services for wine on a regional or nationwide basis or which restricts a provider from holding by himself separate licences for the provision of all distribution services for wine in the same geographical area.
  3. The conditions of ownership, operation and juridical form and scope of activities as set out in the respective licences or in any other form of approval establishing or authorising the operation or supply of distribution services for spirits by an existing service supplier of the Union shall not be more restrictive than those applied at the date of entry into force of this Agreement.
-

## UNDERSTANDING

## CONCERNING BANK EQUITY

1. With respect to capital contribution in the form of buying shares of commercial banks, within five years from the date of entry into force of this Agreement, Vietnamese authorities shall favourably consider the proposal by the Union's financial institutions to allow the total equity held by foreign investors in two joint-stock commercial banks of Viet Nam of up to 49 per cent of the enterprise's chartered capital.
  2. Paragraph 1 does not apply to four commercial banks in which the Government of Viet Nam is currently holding the majority of equity, namely the Bank for Investment and Development of Viet Nam - BIDV, the Viet Nam Joint Stock Commercial Bank for Industry and Trade - Vietinbank, the Joint Stock Commercial Bank for Foreign Trade of Viet Nam - Vietcombank and the Viet Nam Bank for Agriculture and Rural Development (Agribank).

## JOINT DECLARATION

## CONCERNING CUSTOMS UNIONS

The Union recalls the obligations of the countries that have established a customs union with the Union to align their trade regime to that of the Union and, for certain of them, to conclude preferential agreements with countries that have preferential agreements with the Union.

In this context, the Parties note that Viet Nam shall favourably consider starting negotiations with those countries:

- (a) which have established a customs union with the Union; and
- (b) whose products do not benefit from the tariff concessions under this Agreement,

with a view to concluding bilateral agreements establishing free trade areas in accordance with Article XXIV of GATT 1994. Viet Nam shall favourably consider starting negotiations as soon as possible with a view to having those agreements entering into force as soon as possible after the entry into force of this Agreement.
